**China-Focused Cases** Aug 31 2019 This book is the first anthology compiled in English by the CEIBS Case Center to promote China-focused cases worldwide. Included are ten of twenty six award-winning cases from the Global Contest for the Best China-Focused Cases during 2015 to 2017: these works exemplify the quality of effective business cases and share stories of China to the world. Each of the ten cases has a defining feature. Some cases, with a focus on user demand, analyze how companies build their core competence (e.g., Haidilao Hot-Pot and OnePlus Mobile Phone), while others present an array of business innovations in the era of new retail, e-commerce, and the sharing economy (e.g., SF Express, Jinhubao, ofo, FamilyMart, and Handu Apparel). Some describe Chinese companies' operations in the overseas market (e.g., Huawei and TECNO), and others depict how foreign companies adapt to the Chinese market in a unique way (e.g., Starbucks). These cases were drawn from Chinese and overseas business schools. The book helps bridge the gap between the world management community's interest in China and the limited availability of China-focused management cases. We hope this collection of select cases will prove valuable and informative for our readers.

Notes from Toyota-land Mar 07 2020 In 1996, Darius Mehri traveled to Japan to work as a computer simulation engineer within the Toyota production system. Once there, he found a corporate experience far different from what he had expected. Notes from Toyota-land, based on a diary that Mehri kept during his three years at an upper-level Toyota group company, provides a unique insider's perspective on daily work life in Japan and charts his transformation from a wide-eyed engineer eager to be part of the "Japanese Miracle" to a social critic, troubled by Japanese corporate practices. Mehri documents the sophisticated "culture of rules" and organizational structure that combine to create a profound control over workers. The work group is cynically used to encourage employees to work harder and harder, he found, and his other discoveries confirmed his doubts about the working conditions under the Japanese Miracle. For example, he learned that male employees treated their female counterparts as short-term employees, cheap labor, and potential wives. Mehri also describes a surprisingly unhealthy work environment, a high rate of injuries due to inadequate training, fast line speeds, crowded factories, racism, and lack of team support. And in conversations with his colleagues, he uncovered a culture of intimidation, subservience, and vexed relationships with many aspects of their work and surroundings. As both an engaging memoir of cross-cultural misunderstanding and a primer on Japanese business and industrial practices, Notes from

Toyota-land will be a revelation to everyone who believes that Japanese business practices are an ideal against which to measure success.

**Grunt** Feb 27 2022 There is another four-letter word associated with work: life. Beyond providing us with a means to live and survive it can be a key, as Freud noted, to self-esteem, self-identity and how we value life. Now, "Dr. Siggie" nor I believe that work can only be satisfying if you make a ton of money or become famous and powerful. Rather, what "Herr Doktor" was getting at, I believe, was do you love what you do to earn a living? If so, then you've achieved one of the key components of wellbeing. But this philosophical tenet raises a basic question: If you love your work is it really work? An equally troubling question: Conversely, for those people who dislike their jobs, are they justified in disliking life and themselves?
