[The Hiltons](#) Sep 01 2022 The Hiltons is a sweeping saga of the success-and excess-of an iconic American family. Demanding and enigmatic, patriarch Conrad Hilton's visionary ideas and unyielding will established the model for the modern luxury hotel industry. But outside the boardroom, Conrad struggled with emotional detachment, failed marriages, and conflicted Catholicism. Then there were his children: Playboy Nicky Hilton's tragic alcoholism and marriage to Elizabeth Taylor was the stuff of tabloid legend. Barron Hilton, on the other hand, deftly handled his father's legacy, carrying the Hilton brand triumphantly into the new millennium. Eric, raised apart from his older brothers, accepted his supporting role in the Hilton dynasty with calm and quiet-a stark contrast to the boys' much younger half-sister Francesca, whose battle for recognition led her into courtrooms and conflict. The cast of supporting players includes the inimitable Zsa Zsa Gabor, who was married to Conrad briefly and remained a thorn in his side for decades, and a host of other Hollywood and business luminaries with whom the Hiltons crossed paths and swords over the years.

[Cadillac V-16s Lost and Found](#) Nov 22 2021 For eleven years prior to World War II, Cadillac defied the norms of practicality and produced an extravagant supercar, a 16-cylinder luxury automobile that could be tailored to the customer's every want. Big, thirsty and lavish, it cemented Cadillac's place in the top tier of motoring magnificence. Each of the cars has its own colorful and fascinating story to tell. Driven by a life-long love of the V-16 and an interest in the history of his own car, the author has assembled more than 65 of these tales, gleaned from interviews, books, periodicals and documents, into a liberally illustrated book. Each story is shaped by the people a particular car touched, and the events they lived through together. All are an important part of our automotive and cultural history.

[The Cadillac That Followed Me Home](#) Jul 19 2021 The Cadillac V-16 was conceived in secrecy in the middle of the Roaring Twenties, when incomes were rising, prosperity seemed endless and the car business was beginning to break from a traditional emphasis on function over form. But by the time the Cadillac V-16 reached showrooms in 1930, the nation was falling headlong into the Great

Depression, and it soon became a rare relic of the boom before the crash. That is why in the mid-1960s, when Christopher Cummings was an adolescent car enthusiast, the oldest Cadillac V-16s were a dream just out of reach. This memoir tells the story of a boy who grew up loving cars, learned everything he could about them, and acquired quite a few impressive models for himself, while always looking forward to the day he would, by surprising circumstance, find the automobile of his dreams. Early chapters reveal the adventure Cummings underwent renovating his first car at age 13. Over the course of his teenage years he would work to acquire three classic Cadillacs: a 1941 Cadillac Series 7523 seven-passenger touring sedan, a 1941 Cadillac Series 61 coupe, and a 1931 Cadillac Series 355A Fleetwood Cabriolet. Later chapters recount the painstaking effort he put into renovating and maintaining those coveted vehicles. The story culminates with Cummings' unexpected acquisition of the car that earned the motto "Standard of the World," the 1930 V-16 Imperial Sedan limousine. In all, this memoir bears witness to an elegant sample of the best that the Classic era of automotive history had to offer.

Porsche Apr 03 2020 Born in the Bohemian town of Maffersdorf on September 3, 1875, Ferdinand Porsche displayed unparalleled automotive engineering genius from his earliest years, designing all-wheel-drive cars by 1900. At the age of just 31, Porsche became the technical director of Austro-Daimler, at the time one of the world's largest automobile manufacturers where Porsche designed some of the world's most iconic cars, like the Mercedes-Benz Kompressor and Typ S models. In 1933, Porsche developed the fabled 16-cylinder mid-engine Auto Union Grand Prix race car. In 1938 Porsche began development of the Typ 64. Built for long-distance endurance competition, the Typ 64 is considered the forefather of all Porsche race cars. Porsche captures the Porsche story through entries on the most iconic Porsche cars ever built, from the first 356 to the latest 911, to the mid-engine Boxster and Cayman, and all the front-engine cars including the 928, 944, 968 and Cayenne. No other sports car has achieved the success of those built by Porsche, on the street or on the world's racetracks. Part of Motorbooks' First Gear series, Porsche celebrates the German marque's history through lavishly illustrated profiles of the company's ground-breaking sports cars, each one supplemented with spec boxes and "did you know?" factoids.

Cars I Could've. Should've. Kept Jul 31 2022 A small business owner and lifelong lover of classic sports cars, Jackson Brooks began in the early 1960s to purchase, restore and enjoy a long succession of rare automotive beauties, many of which are million-dollar commodities in today's market. Not so much a collector as an enthusiast and entrepreneur, he recounts in this well-illustrated memoir how he found and selected the cars, some of which were on the verge of the scrap-heap, the process of restoring them, the challenges he confronted along the way, the ones that got away, and always the hunt for the next vehicle to spark his imagination. The cars, primarily sporting machines, include 8C-2.3 Alfa Romeos, a Jaguar SS100, three 1953 Ferrari 250MM Barchetta racers (of 13 built), a 1922 Mercedes Targa Florio racer, a Type 57 Bugatti, a 1929 Mercedes SSK (one of 33 built), four Talbot Lagos, and a 1937 Cord 812 Phaeton among many others, with particular concentrations on Ferrari and Alfa Romeo. Often the sale of one, after restoration and use, financed the purchase of the next, and the text includes the purchase and sale prices as well as approximate present-day market values of the cars. Few people have enjoyed so much hands-on experience with so many of the world's most desirable automobiles.
