[Fundamentals of Integrated Vehicle Realization](#) Nov 02 2020 Fundamentals of Integrated Vehicle Realization is a unique and solid contribution to the subject of product development, centered on the automotive industry. Automotive manufacturers and suppliers are under pressure to transform themselves and deliver a higher level of product refinement coupled with more functionality. This could lead to the sprouting of organizational structures not in alignment with the required product development phases. Consequently, many product development initiatives may be cancelled or dropped at later stages despite all the efforts and financial investments. Therefore, it is vital that organizational unity be always intact during any transformation. A highly effective organization should always act as one cohesive entity dedicated to serving the customer with creative aptitude, integrative skills, analytical thinking, and synergistic management. Written by Dr. Mohamed El-Sayed, director of the School of Engineering Technology at Eastern Michigan University, Fundamentals of Integrated Vehicle Realization addresses an essential need for deep knowledge in the realm of vehicle development process, from idealization to market launch. The book covers realization process phases, process and vehicle characteristics and attributes, front-end innovation, virtual and physical realization, among other topics.

[The Expressive Organization : Linking Identity, Reputation, and the Corporate Brand](#) Mar 26 2020 This book challenges current beliefs about organizational identity, reputation, and branding. It contains a wealth of new ideas for finding the elusive answers to questions troubling contemporary organizations. How does an organization create a strong reputation? What are the implications of corporate branding on organizational structures and processes? How do organizations discover their identities? These are some of the vexing problems addressed in this book by a diverse international team of contributors. According to the authors, the future lies with 'the expressive organization'. Such organizations not only understand their distinct identity and their brands, but are also able to express these externally and internally. In order to thrive in an era of transparency and customer choice, the authors argue, organizations will have to be expressive.
