Radar and Sonar Imaging and Processing Nov 02 2019 The Special Issue “Radar and Sonar Imaging Processing” is a collection of 21 articles exploring many topics related to remote sensing with radar and sonar sensors. In this editorial, we present short introductions of the published articles. The series of articles in this SI deal with a broad profile of aspects of the use of radar and sonar images in line with the latest scientific trends while making use of the latest developments in science, including artificial intelligence. It can be said that both radar and sonar imaging and processing still remain a “hot topic” and much research in this area is being conducted worldwide. New techniques and methods for extracting information from radar and sonar sensors and data have been proposed and verified. Some of these will stimulate further research while others have reached maturity and can be considered for industrial implementation and development.

Manual on Harmful Marine Microalgae Mar 31 2022

American Cars, 1960-1972 Oct 06 2022 The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the “need for speed” characterized this period, loosely labeled as the muscle car era. This is an

exhaustive reference work to American made cars of model years 1960–1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.

Popular Science Mar 07 2020 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

The Age of the Muscle Car Aug 04 2022 A breed unlike any seen before or since, the powerful, stylish American muscle car defined an era in automotive history. This history traces the rise and fall of these great performance cars from their precursors in the 1950s through the seminal appearance of the Pontiac GTO in 1964 and then year by year to the end in the 1970s. Approachable and nontechnical yet deeply informative, it puts the bygone muscle car in its cultural and aesthetic contexts, describes developments in styling, performance and marketing, and revels in the joys of muscle car ownership in the 21st century.

Original Dodge and Plymouth B-Body Muscle 1966-1970 Feb 27 2022 The B-body accounted for a wide range of Chrysler Corporation muscle cars of the sixties and seventies, including the Charger, Road Runner, Super Bee, Satellite, GTX, and Coronet R/T. These cars brought a great deal of character to the muscle car scene and continue to be extremely popular today, particularly with Mopar fans, some of the most rabid car enthusiasts there are. As an Original series title, this book will detail the correct parts, finishes, options, and trim pieces for all the b-body cars of this era. The wide variety of engine options, from Hemi to Wedge to Ram, will be covered in detail, as will all the special editions that featured wild colors and unique bodywork--elements that were crucial to the mystique of these cars. The book will be filled with high-quality, detailed photos of cars that are either excellent originals or very accurate restorations. About the Author Jim Schild is the publisher of The Auto Review and is the author of eight automotive books, including four for Motorbooks International. He began his life-long enthusiasm for Chrysler products in 1965 when he first worked at the St. Louis Chrysler Assembly Plant and continued into later involvement with drag racing. Schild lives in Columbia, Illinois and is a member of fifteen local and national collector car organizations, including the Society of Automotive Historians.

VMR Standard Used Car Oct 02 2019 Readers can get prices, engine descriptions, and horsepower ratings on used cars made between 1986 and 1999 in this comprehensive guide, updated quarterly. There are no confusing look-up tables for car options, and only one simple table for vans and trucks. The book also offers a toll-free telephone support line to help readers with the car-buying process.

Craig McDean: Manual May 09 2020 The worlds of high-fashion models and car racing collide in this high-octane collection of images from one of the fashion world's most celebrated photographers. Before he was one of the fashion world's most revered and sought-after photographers, Craig McDean trained and worked as a car mechanic in his hometown of Middlewich, England. In this new volume (the highly anticipated follow-up to McDean's lauded first monograph, *Amber, Guinevere, and Kate*), the photographer celebrates his two main passions: cars and fashion. With McDean's trademark energy and glamour, the images in this book capture the beauty, mystery, and sex appeal inherent in both the worlds of luxury fashion and luxury automobiles. Featuring some of fashion's most well-known models juxtaposed against images of flame-covered race cars and chromium steel car parts, *Craig McDean: Manual* is a stylish exploration of the ways that fashion and car racing collide.
