**The Fisher Boy** May 08 2020 Spiraling off the tip of Cape Cod, Provincetown has long been a place of escape, new beginnings, and diverse communities. Famous as an art colony, known for the Cape Cod School, its gallery scene is vibrant. Gay life is everywhere. Boston comic Mark Winslow has arrived this summer with a group of fellow improv actors ready to break into Provincetown's club circuit. It should be a carefree summer, but currents swirl beneath the sunny surface. Does the tall ship out in the harbor herald an unusually large crowd of Scandinavian tourists? If not, who are the blond and ragged visitors seen everywhere? Then, at a philanthropist's dinner opening the season, Mark gets into a very public fight with the son of local bluebloods-an old school friend. It makes him the prime suspect when the lawyer is later savagely murdered out on the beach. Though he stumbles from the scene, Mark thinks his choice is simple: find the killer or be charged with the crime. The Fisher Boy is Stephen Anable's debut novel.

*A Shane Investigation Collection* Jun 08 2020 FIRE SETTERS - A police sergeant, the woman who dumped him, and their second chance at love. While on a stakeout to catch the cretin who's stalking a client, Private Investigator Candice Shane finds a house on fire—at midnight. A pink tricycle in the yard prompts her hasty decision to break in, saving a sleeping woman and her three children. Her ex-boyfriend, Sergeant Alex Delaney, thinks she's insane to take on the woman as a client. But with the husband out of town during the incident, he's the prime suspect, and Candice has a gut feeling he didn't do it. Who would want a woman and three children dead? As clue after clue leads Candice and Alex down a dangerous road, her heart is also on a treacherous path—one of falling for Alex again. Sure, Candice can dodge bullets and interrogate witnesses, but she can't she resist Alex's wit, charm, and good looks. In the end, if she and Alex can't find who set the fire, her heart might not be the only thing she loses. Fire Setters: A Shane Investigations is a gripping crime thriller filled with heart-melting romance and mystery. THE SILK STRANGLER - A police detective who wants a lifetime of love, a private investigator who values her independence, and their struggle to trust each other. Private Investigator Candice Shane had a good reason for breaking up with her university boyfriend Alex Delaney five years ago. His career choice after graduation as a police officer was dangerous. She knew this personally after her parents, both cops, died by the same loathsome gunmen when she was only eight. But Candice wasn't expecting her easy job of asking questions and simple surveillance to be just as hazardous. Detective Alex Delaney understands Candice's job. His love for her keeps him standing beside her while he'd rather stand in front of her to keep her safe from a maniac strangler who seeks out vulnerable women. Three bodies in three weeks and they still have no solid clues. Candice is brought in on the investigation as a consultant, but even being in the background brings her to the killer's attention. Now it's a race against time before he can claim another victim, and before Alex loses his love to the Silk Strangler. The Silk Strangler: A Shane Investigations is a gripping crime thriller filled with heart-melting romance and mystery. INTO THIN AIR - The small plane crash at the Sedona airport wasn't typical: A Beechcraft nosedived into the wooded canyon after takeoff, no fire, the dead pilot still strapped into his seat, and the body of a missing teenage girl found in the rubble. Private Investigator Candice Shane has a friend in trouble. Artist Parker Lane has been there for her in the past, putting together an impromptu wedding reception, and supplying the paintings for her house. Now it's time to return the favor. When Parker first learns of her husband's death in a plane crash, she is lost. When gruesome details emerge about his teenage girl passenger, she contacts Candice to investigate. From Sedona to Phoenix to Las Vegas, Candice won't stop until she unearths the dreadful facts, enlisting the help of her husband's police contacts to discover the truth. Underage girls, a pocket full of jewelry, and a delusional 'best friend' provide plenty of adventure, danger, and even more treacherous questions.

*International Turf Management Handbook* Nov 13 2020 Grasslands take up approximately one-quarter of the world's vegetative cover. Turfgrasses protect the land from erosion, stabilize the soil, moderate the temperature and provide low cost safe surfacing for many sporting and leisure activities. Amenity grasslands - and turf in particular - do more than form a significant part of the global landscape. They make up the basis of a multimillion dollar industry. International Turf Management Handbook covers the establishment, maintenance, and management of natural turfgrass surfaces. This handbook is arranged in four sections. The first section details the identification and selection of turfgrasses, how they grow, and their maintenance. The second section focuses on the management and administration of the turfgrass business. The third section addresses current standards and their use to effectively manage different surfaces such as bowling, croquet and golf greens, grass tennis courts, cricket tables, football and athletic fields,

racetracks, and golf fairways. The final section discusses important environmental issues in turf management, including water resources, pesticides and fertilizers. Developed in association with more than 20 leading turf management authorities, the International Turf Management Handbook details the how the natural turfgrass surface functions. It explores strategies that blend biodiversity and sustainability with the business of maintaining turf. It is essential reading for agriculture, horticulture, and natural resource professionals, and land managers.

**The Way Of Dalmatian - A Water Polo Handbook** Apr 18 2021 The Way Of Dalmatian - A Water Polo Handbook This handbook is a compilation of work and lessons gathered during my time as a water polo player and as a coach. My water polo experience is heavily influenced by the coaches and players from the Croatian the coastal region of Dalmatia. Because of the proximity and the location we have to include an area of the Adriatic coast just south from the Dalmatian region which includes Dubrovnik and Kotor. Dalmatian water polo is one of the most important segments of not only European water polo but also World's water polo.

*Cartographic Strategies of Postmodernity* Oct 01 2019 The last fifty years have witnessed the growing pervasiveness of the figure of the map in critical, theoretical, and fictional discourse. References to mapping and cartography are endemic in poststructuralist theory, and, similarly, geographically and culturally diverse authors of twentieth-century fiction seem fixated upon mapping. While the map metaphor has been employed for centuries to highlight issues of textual representation and epistemology, the map metaphor itself has undergone a transformation in the postmodern era. This metamorphosis draws together poststructuralist conceptualizations of epistemology, textuality, cartography, and metaphor, and signals a shift away from modernist preoccupations with temporality and objectivity to a postmodern pragmatics of spatiality and subjectivity. Cartographic Strategies of Postmodernity charts this metamorphosis of cartographic metaphor, and argues that the ongoing reworking of the map metaphor renders it a formative and performative metaphor of postmodernity.

The book covers the development of efficient discretization approaches; advanced numerical methods; improved programming techniques; and applications of these developments to nonlinear analysis of structures and solids. The chapters of the text are organized into 10 parts according to the issue they tackle. The first part deals with nonlinear mathematical theories and formulation aspects, while the second part covers computational strategies for nonlinear programs. Part 3 deals with time integration and numerical solution of nonlinear algebraic equations, while Part 4 discusses material characterization and nonlinear fracture mechanics, and Part 5 tackles nonlinear interaction problems. The sixth part discusses seismic response and nonlinear analysis of concrete structure, and the seventh part tackles nonlinear problems for nuclear reactors. Part 8 covers crash dynamics and impact problems, while Part 9 deals with nonlinear problems of fibrous composites and advanced nonlinear applications. The last part discusses computerized symbolic manipulation and nonlinear analysis software systems. The book will be of great interest to numerical analysts, computer scientists, structural engineers, and other professionals concerned with nonlinear structural and solid mechanics.

TTP-4 continues an important tradition established in 1992 at the first Conference in St. Paul, Minnesota, USA, and developed subsequently at the Kruger National Park, South Africa (1995) and the High Tatra Mountains, Slovakia (1999). The 31 papers published in this special issue are divided between six sessions, with a keynote address as an introduction. The first session, which deals with biosystematics, genomics and proteomics of ticks, contains the most recent world list of valid tick names. The papers deal with a broad range of tick-host-pathogen interactions, including remote sensing and mapping of ticks and tick-borne pathogens as well as practical aspects of tick control. It is recommended reading for anyone working on ticks and tick-borne pathogens, which are of increasing medical and veterinary importance worldwide.
