back and lean, with everything designed for a single purpose—war. This Haynes Manual traces the origins of a Bird-of-Prey from the moment it is commissioned by one of the Great Houses and constructed at the shipyards of the Klingon Naval Academy. It then proceeds to examine General Martok's famous ship the I.K.S. Rotarran in unprecedented detail. Featuring a stunning cutaway drawing and, for the first time ever, detailed deck plans and incredible new computer-generated artwork, the Haynes Bird-of-Prey Manual is a technical tour of the ship's systems, from the bridge and engineering rooms to the disruptors, torpedo launcher, and the all-important cloaking device. In addition, the Manual provides a unique insight into life on board a Klingon ship and the Rotarran's glorious history in the Dominion War. This Haynes Manual is fully authorized by CBS. All the new artwork has been designed by STAR TREK: THE NEXT GENERATION and STAR TREK: VOYAGER's senior illustrator Rick Sternbach, who is the world's leading expert on STAR TREK technology, with CG renders produced by STAR TREK VFX artist Adam 'Mojo' Lebowitz.

Manual de historia colombiana Nov 12 2020 "El revés de la trama de La Guerra De Los Violines del laureado escritor Fernando Ayala Poveda. La Metanovela bisagra de la Memoria, la Paz y el Postconflicto. Una aventura apasionante a los territorios heridos de Colombia a través de la cartografía de los sueños, las voces, las víctimas y los héroes sin tumba. Un análisis de la cocina literaria e histórica de una novela con 72 versiones iluminada por Historia De Un Deicidio de Mario Vargas Llosa sobre Cien Años De Soledad de García Márquez. Actores de la vida real y personajes de ficción fluyen como la vida misma, tocando las emociones. El lector es abducido por un mundo vital y lleno de aromas de café. Fernando Ayala Poveda, escritor de prosa alegre, mi admiración por la obra narrativa de Ayala Poveda surgió después de leer su novela "La Guerra de los Violines". ¡Qué lenguaje tan exquisito el que campea en este libro! Basta leer el primer párrafo para advertir ese manejo delicado de la prosa, esa estética en la construcción de las oraciones, esa fuerza expresiva que tienen las frases, esa densidad que hay en los diálogos. El suyo es un estilo depurado. Su narrativa está trabajada con precisión

artística, con poder de convicción frente al lector, con sorprendente encanto literario. Leamos, para comprobarlo, esta frase: "Magdalena desanudó su gozo con un suspiro y el hombre la acarició con ternura. Giró de medio lado y le tomó las manos. Quiso por un momento tocarlas y las sintió frías." Hay una constante en la narrativa de Fernando Ayala Poveda: su enfoque sobre la violencia partidista que vivió el país. Nadie como este escritor boyacense se ha aproximado tanto a ese fenómeno social que, para poder alcanzar la convivencia pacífica entre los dos partidos, motivó la creación del Frente Nacional. "La Guerra de los Violines" es una radiografía del enfrentamiento entre liberales y conservadores, escrita en una prosa exultante, con una técnica impecable, donde la palabra fluye con una fuerza expresiva que impresiona al lector por la cruda exposición de esa violencia que padeció Colombia. Aquí se novela sobre cómo los alzados en armas huyen de la persecución del Estado. El ritmo narrativo hace que el interés en la lectura vaya en aumento, como un imán que atrae al lector. Ahora Fernando Ayala Poveda nos sorprende con "La guerra de los violines", una novela que según Jorge Iván Parra "es un baúl al que le cabe de todo: historias de familia, persecuciones, travesías, dramas personales y tragedia sociales". En esta obra el autor mezcla hábilmente lo ficticio con lo real en un relato con referencias históricas y un fondo musical que va mostrándole al lector esa violencia que dejó tantos dolores empozados en el alma de cientos de colombianos. Durante más de treinta años el escritor trabajó en esta novela que rinde tributo de admiración a Frida Kahlo a través de un personaje, María Alicia Ayala, que es la simbolización perfecta de esas mujeres que luchan por la libertad. Esta es una novela polifónica donde los grandes protagonistas son el lenguaje y la música."--Page 4 of cover.

In the Manner of the Franks Sep 10 2020 Eric J. Goldberg traces the long history of early medieval hunting from the late Roman Empire to the death of the last Carolingian king, Louis V, in a hunting accident in 987. He focuses chiefly on elite men and the changing role that hunting played in articulating kingship, status, and manhood in the post-Roman

world. While hunting was central to elite lifestyles throughout these centuries, the Carolingians significantly altered this aristocratic activity in the later eighth and ninth centuries by making it a key symbol of Frankish kingship and political identity. This new connection emerged under Charlemagne, reached its high point under his son and heir Louis the Pious, and continued under Louis's immediate successors. Indeed, the emphasis on hunting as a badge of royal power and Frankishness would prove to be among the Carolingians' most significant and lasting legacies. Goldberg draws on written sources such as chronicles, law codes, charters, hagiography, and poetry as well as artistic and archaeological evidence to explore the changing nature of early medieval hunting and its connections to politics and society. Featuring more than sixty illustrations of hunting imagery found in mosaics, stone sculpture, metalwork, and illuminated manuscripts, *In the Manner of the Franks* portrays a vibrant and dynamic culture that encompassed red deer and wild boar hunting, falconry, ritualized behavior, female spectatorship, and complex forms of specialized knowledge that united kings and nobles in a shared political culture, thus locating the origins of courtly hunting in the early Middle Ages.
