While practicing as an Optometrist and as an Ophthalmologist, he has seen many examples of poor medical care by Optometrists, himself included. He is convinced that it doesn't have to be this way. He believes Optometrists who start their own Medical Optometry Practice can fill an increasingly important function, but they need more knowledge and clinical experience, which he seeks to provide in this textbook, in his web site www.theodmndconsultinggroup.com, in future courses and as a consultant to your Medical Optometry Practice.
