Rhetoric and Human Consciousness Jun 06 2020 The latest edition of Rhetoric and Human Consciousness remains a well-researched, accessible examination of rhetorical theory in Western civilization. Smiths coverage of the major figures who advanced rhetoric is strengthened by his keen analysis of developments in rhetorical theory that resulted from its interaction with other disciplines and the cultures surrounding it. The dialectic between rhetoric and other disciplines (notably philosophy and psychology) illuminate evolving definitions of rhetoric, from myth and display to persuasion and symbolic inducement. Well-chosen, engaging examples demonstrate how rhetoric can find truths, particularly at times when science and reason fail to solve important human crises. Paramount to this well-wrought survey is Smiths ability to show that rhetorical criticism illustrates, verifies, and refines rhetor-ical theory. Thus, the synergistic relationship between theory and criticism in rhetoric is no different than in other arts. Chief among the Fourth Editions enhancements are expanded discussions of the historical context for the creation of rhetorical theory and its use in public address; additional coverage of Isocrates, Cicero, Machiavelli, Kenneth Burke, and Michel Foucault; new material on the rhetoric of civil religion, ideological criticism, constitutive discourse, and feminist rhetorical theory; and many fresh examples. Each chapter ends with questions that sharpen readers retention of concepts and the ability to apply those to everyday life.

Problems in Modern Latin American History Nov 11 2020 Now in its fourth edition, this leading reader has been updated with the aim of tightening the focus of each chapter on a major interpretive problem. This edition includes an entirely new chapter, Historical Memory, which allows readers to revisit the era of the Cold War from a contemporary perspective, and the chapters on nationalism and globalization have been thoroughly revised. The book continues to offer a rich variety of materials that can be tailored to the needs of individual instructors. The reader s unique and successful chapter organization provides a thematic complement to narrative accounts of modern Latin American history. By focusing each chapter on a single concept or interpretive problem such as nationalism, women s rights, or social revolution the text engages students in the analysis of historical sources and, at the same time, introduces them to the twists and turns of historiography. Each chapter in this new edition includes at least two primary sources. **Ancient India** Aug 28 2019 This is a comprehensive, intelligible and interesting portrait of Ancient Indian History and Civilization from a national historical point of view. The work is divided into three broad divisions of the natural course of cultural development in Ancient India: (1) From the prehistoric age to 600 B.C., (2) From 600 B.C. to 300 A.D., (3) From 300 A.D. to 1200 A.D. The work describes the political, economic, religious and cultural conditions of the country, the expansionist activities, the colonisation schemes of her rulers in the Far East. Political theories and administrative organizations are also discussed but more stress has been laid on the religious, literary and cultural aspects of Ancient India. The book is of a more advanced type. It would meet the needs not only of general readers but also of earnest students who require a thorough grasp of the essential facts and features before taking up specialized study in any branch of the subject. It would also fulfil requirements of the candidates for competitive examinations in which Ancient Indian History and culture is a prescribed subject.

**MGB – The Illustrated History 4th Edition** Dec 01 2019 The MGB was Britain's most successful ever sports car, with sales of over half a million. And the truth is, that more than three decades after production ceased, the MGB's classic lines, affordability, fun factor and certain "rightness" mean that its enthusiastic following remains undiminished. In "MGB: The Illustrated History" the authors, self-confessed "B" enthusiasts both, recall the remarkable history of this remarkable car. Originated with full co-operation and contributions from key members of the original design team, including John Thornley, Syd Enever, Don Hayter and Roy Brocklehurst, this book takes the reader behind the scenes at the world-famous MG factory at Abingdon, which closed its doors in 1980 with the demise of the MGB after 18 years in production. The background to the MGB roadster's development is first recalled in the context of its immediate predecessor, the MGA, the various famous EX experimental models, and the heritage of MG as a whole. Separate chapters then follow the development, introduction and production of the GT, MGC and V8. Further chapters on the MGB's competition successes and the RV8 complete the story. Along with a feast of colour photographs and contemporary brochure material – enough to satisfy even the most ardent MGB lover – the book also features full-colour cutaway illustrations of the three main "B" variants. Copiously illustrated with contemporary colour photographs and brochure material, and featuring colour cutaway illustrations of the MGB roadster, MGC, MGB GT V8 and MG RV8, this book not only charts the production life of Britain's best-loved sports car, but also takes the reader behind the scenes at the world-famous Abingdon factory.
