action for looking at possible solutions to children's needs:

1. Clarifying the problem: who has the problem, and what sort of problem is it?
2. Collecting evidence: how serious is it, and what are the causes and effects?
3. Planning: what can be done, who will do it, when and how?
4. Action: converting the plan to action, monitoring and review

In each chapter the discussion of planning strategies is supported by a case study example of its use in practice, together with materials for teachers to use and adapt in their own classroom contexts. Sections include: *
