Diet for a New America 25th Anniversary Edition Nov 11 2020 Originally published in 1987, Diet for a New America awakened the conscience of a nation with its startling examination of the food we buy and eat — and the moral, economic, and medical price we pay for it. Drawing a clear line connecting America's factory farm system with disease, animal cruelty, and ecological crises, Robbins makes perhaps the most eloquent argument for vegetarianism ever published. Robbins walked away from his family's business — the Baskin-Robbins ice cream empire — to pursue his dream of promoting a healthy society that practices "compassionate stewardship of a balanced ecosystem." In Diet for a New America he presents both a disturbing portrait of our current system and a vision for the future that will educate and empower readers to change.

A

powerful book which explains in simple English how early humans & final "types" of humans were created genetically by the Anunnaki some 65,000 years ago in Mesopotamia. The book is solely based upon the Sumerian-Akkadian-Assyrian tablets, archaeology, history, Anunnaki Ulema, literature and linguistic sources from Babylon, Uruk, Ur, Eridu and other ancient Mesopotamian cities. In this academic, informative and entertaining book, there is no room for false/bogus translations and ridiculous interpretations of the history of the Anunaki, Sumero-Akkadian-Assyrian tablets and fabrication of stories about planets and stars which do not exist, and childish tales of expeditions of ancient aliens and Anunnaki who came to Earth to mine gold.

10th Edition. 2022: WHAT WILL HAPPEN TO US WHEN THE ANUNNAKI RETURN TO EARTH IN 2022? Sep 21 2021 Published by Times Square Press <http://www.timessquarepress.com/> Author's website:www.maximilliendelafayettebibliography.comThe subjects introduced in this book are explosive. Most important is the fact that it reveals the potential return of the Anunnaki in 2022, and the most frightening transformation that it would bring to the earth. If this is going to happen, a huge number of the people on earth, those grossly contaminated by Grays' DNA, will be annihilated. Only those who are naturally uncontaminated and those who managed to clean themselves completely will be taken up through an antimatter bubble, with the animals and certain important buildings and inanimate art and culture objects, and kept safe until the earth would be clean again. Such a scenario is, to say the least, disconcerting. Even if you are not sure whether you are a believer or not, you should certainly consider the possibilities - and the book teaches you exactly how to save yourself.
