Game Time Sep 30 2019 Pausing, slowing, rewinding, replaying, reactivating, reanimating . . . Has manipulating video game timelines altered our experience of time? "Compelling." —Choice Video game scholar Christopher Hanson argues that the mechanics of time in digital games have presented a new model for understanding time in contemporary culture, a concept he calls "game time." Multivalent in nature, game time is characterized by apparent malleability, navigability, and possibility while simultaneously being highly restrictive and requiring replay and repetition. When compared to analog tabletop games, sports, film, television, and other forms of media, Hanson demonstrates, the temporal structures of digital games provide unique opportunities to engage players with liveness, causality, potentiality, and lived experience that create new ways of experiencing time. Features comparative analysis of key video games titles—including Braid, Quantum Break, Battle

of the Bulge, Prince of Persia: The Sands of Time, Passage, The Legend of Zelda: The Ocarina of Time, Lifeline, and A Dark Room.

"The text is well-researched, and the introduction is an excellent, focused overview of video game studies." —Choice

Listeners do love their pastors and they agree with the sermon content they hear,' Lori Carrell

[Online Library Everfocus Dvr Instruction Manual Read Pdf Free](#)

once explained to a group of pastors, 'but most sermons don't ask for change, and most listeners don't experience spiritual growth as a result of the sermon.' A participant responded: 'Let's get practical. I want my preaching to make a difference. What changes are worth making, and how do I make them?' In *Preaching that Matters*, Lori Carrell shares answers to that question, drawing on the experiences of thousands of people—preachers and their listeners—whose effort she has studied over many years. In each chapter of this book, she offers research revelations about high impact preaching that will encourage and challenge readers to continue to grow as preachers. She then links these principles with Reflective Practice Challenges (RPCs), exercises that honor the rich experiences of pastors while opening opportunities for self-analysis, spiritual introspection, conversation with a trusted other, or implementation of research-based preaching recommendations. The activities have been used by hundreds of other pastors, and each RPC has been carefully selected for its demonstrated contribution to the process of transforming sermon communication. A selection of the RPCs are available as a downloadable file. E-mail resourcematerial@rowman.com for more information. As a communication expert, Carrell approaches preaching from a 'sermon communication' paradigm. She begins with the task of identifying the spiritually transformative purpose of the sermon and then explores exegeting, organizing, deepening, and delivering the sermon, as well as listening to the listeners and planning for continued transformation. Her own goal is simple: to inspire and equip clergy to make changes that will enhance the transformative power of their preaching. Here on the Coast Oct 24 2021 No matter where people live on the BC coast, says Howard White, they have certain shared experiences: frustration with rain and ferries, familiarity with gumboots, bumbershoots, seagull droppings and barnacles in the wrong places. But each little community clings to its own sense of uniqueness and considers itself the true West Coast. As a case in point, White offers fifty funny sketches of life as he has come

to know it in sixty-odd years of living along that hundred-mile stretch of monsoon-prone shoreline ironically known as the Sunshine Coast. Included is what must be one of the most admiring testaments ever written about the virtues of the old-time outhouse; fond remembrances of saltwater fishing when a bad day meant you didn't hook something in twenty minutes; and explorers who stooped to naming islands after favourite racehorses. We also meet a "bouquet of characters," including a lyrical logger known as Pete the Poet; a diabolical seagoing remittance man; the saintly Quaker philosopher Hubert Evans and White's barrier-busting Aunt Jean who taught him the advantages of "scientifically enlarging the truth." Along with accounts of waste disposal wars and wry observations on modern technology, *Here On the Coast* offers a West Coast counterpart to such favourites as *Letters From Wingfield Farm* and *Sunshine Sketches of a Little Town*.

Bloomberg by Bloomberg, Revised and Updated Sep 10 2020

Michael Bloomberg rose from middle-class Medford, Massachusetts to become a pioneer of the computer age, mayor of New York, one of the world's most generous philanthropists, and one of America's most respected—and fearless—voices on gun violence, climate change, public health, and other issues. And it all happened after he got fired at the age of 39. This is his story, told in his own words and in his own candid style. After working his way through college and graduating from Harvard Business School, Bloomberg landed on the bottom rung of a Wall Street firm and worked his way up to partner. But in 1981, he was forced out of the firm. With an idea for computerizing financial data, Bloomberg started his own company. And, since personal computers barely existed, he built his own. Specially designed for Wall Street traders and analysts, the Bloomberg Terminal revolutionized the world of finance. Under Bloomberg's leadership, his company grew rapidly, playing David to the Goliaths of finance and media—and making Bloomberg one of the world's wealthiest men. *Bloomberg by Bloomberg* offers an intimate look at the creative mind and driven personality behind the Bloomberg brand. He describes in vivid detail his early Wall Street career, both the victories and frustrations, including a personal account of what it was like to be fired and given \$10 million on the same day. He combines personal stories with penetrating insights into business and technology, while also offering lessons from his unique approach to management. There is no one in business or politics quite like him—or who has had more success in both areas.

Readability: Text and Context Oct 04 2022 This book explores what makes a book readable by bringing together the relevant literature and theories, and situating them within a unified account. It provides a single resource that offers a principled discussion of the issues and their applications.

Altared Aug 10 2020 When Kyle Tackwell Ball's search for a quaint country home near Florence, Italy, in move-in condition somehow led to the purchase of an abandoned church in a small borgo near Greve-in-Chianti called Le Convertioie, she ended up with much more than a project to overcome her newly contracted "empty nest syndrome." Ball soon found herself starring in a "Stones and Bones Classic"; the ruin she'd purchased would require years of renovation and an endless amount of money before it would become habitable. But her journey had unexpected rewards, too: she reconnected with some wonderful friends, made new ones, learned the language of her newly adopted home country, and became experienced in the Italian knack of getting around the system. Most importantly, she learned to appreciate Italian culture, food and wine, and how rewarding it is to give new life to a beautiful old building. Ball's renovation was featured in the March 2010 "Before & After"

issue of *Architectural Digest*, beautifully documented by Kim Sargent of Sargent Architectural Photography.
