assessment of student midwives in clinical practice, paying particular attention to how their practice is graded. Chenery-Morris brings primary research, which explores students, mentors, and midwifery lecturers perspectives of practice learning and its assessment, together with the international literature on clinical knowledge, teaching and learning in practice and assessment of students drawn from a range of healthcare and education professions. Discussing how practice is graded, what constitutes valid practice knowledge, learning in clinical practice, evaluating practice learning and failing students, this book uses Basil Bernstein's theories to throw light on how we assess and whether we should assess performance in addition to whether a student is competent to practise. This is an important contribution to the field of midwifery education. It will also be relevant to those with an interest in practice education from a range of

and successful friends, family members, community members, and citizens. We have also designed our curriculum to be customizable so that teachers can identify and address their students' unique needs, align activities accordingly, and ensure that instruction is age and grade level appropriate. What Is the Student Journal? The Student Journal provides a place for students to process their thoughts and feelings with words or pictures. Each section includes a coloring page, quote, and life application question.

and growth; and as a teaching tool ** Will appeal to college faculty, administrators and teachers One of the most powerful ways to learn, reflect and make sense of our lives is through journal keeping. This book presents the potential uses and benefits of journals for personal and professional development—particularly for those in academic life; and demonstrates journals' potential to foster college students' learning, fluency and voice, and creative thinking. In professional life, a journal helps to organize, prioritize and address the many expectations of a faculty member's or administrator's roles. Journals are effective for developing time management skills, building problem-solving skills, fostering insight, and decreasing stress. Both writing and rereading journal entries allow the journal keeper to document thinking; to track changes and review observations; and to examine assumptions and so gain fresh perspectives and insights over past events. The authors

present the background to help readers make an informed decision about the value of journals and to determine whether journals will fit appropriately with their teaching objectives or help manage their personal and professional lives. They offer insights and advice on selecting the format or formats and techniques most appropriate for the reader's purposes.
