French Costume Drama of the 1950s Apr 18 2021 When political and civil unrest threatened France's social order in the 1950's, French cinema provided audiences a seemingly unique form of escapism from such troubled times: a nostalgic look back to the France of the nineteenth and earlier centuries, with costume dramas set in the age of Napoleon, the Belle +poque, the Revolution and further back still to seventeenth-century swashbuckler adventures and tales of mystery and revenge. Film critics have routinely dismissed this period and this genre of French cinema, overlooking its importance in terms of political cultural history. *French Costume Drama of the 1950's* redresses this balance, exploring a diverse range of films including Guitry's *Napoléon* (1955). Vernay's *Le comte de Monte Cristo* (1953), and Le Chanois' *Les Misérables* (1958) to expose the political cultural paradox between nostalgia for a lost past and the drive for modernization --Book Jacket.

Women's Costume of the Near and Middle East Dec 15 2020 The historical and cultural

richness of the Near and Middle East is reflected visually in its costume. In this book, Jennifer Scarce makes brilliant use of years of research to provide a lucid account of the development of women's dress from the fourteenth to the early twentieth centuries. Her study of costume is set in the broader context of the social and economic background of the Ottoman Empire, giving the subject a new and fascinating slant. A detailed discussion of cut and construction is accompanied by pattern layouts and numerous photographs which clearly illustrate the different styles of dress through the centuries. Women's costume of the Near and Middle East is a hitherto sadly neglected subject. After years of original research across the world, this gap has been admirably filled by Jennifer Scarce's scholarly readable study.

Conflict and Costume Feb 03 2020 "In the second half of the nineteenth century, the influence of missionaries, traders and immigrants in what became German South-West Africa led to the adoption by the Herero of the European dress of the day: floor-length gowns, Western-style suits and hats, and military uniforms. Following the terrible German-Herero war of 1904-08 and the end of German colonial rule in 1915, the dresses and uniforms - including those of killed or departed German soldiers - became central to the rebuilding of Herero cultural identity. In *Conflict and Costume*, acclaimed photographer Jim Naughten captures the colourful Herero attire in a series of spectacular portraits set against the Namibian landscape." -- Inside dust jacket.

Modernizing Costume Design, 1820-1920 May 08 2020 Annie Holt identifies the roots of contemporary Euro-American practices of costume design, in which costumes are an integrated part of the dramaturgy rather than a reflection of an individual performer's taste or status. She argues that in the period 1820-1920, as part of the larger project of modernism across the artistic and cultural field, the functions of "clothing" and "costume" diverged. Onstage apparel took on a more specific semiotic task, acting as a fresh channel for the flow of information between the performer, the literary text, and the spectator. *Modernizing Costume Design* traces how five kinds of artists - directors, performers, writers, couturiers, and painters - made key contributions to this new model of costume design. Holt shows that by 1920, costume design shifted in status from craft to art.

Costume in Performance Feb 26 2022 This beautifully illustrated book conveys the centrality of costume to live performance. Finding associations between contemporary practices and historical manifestations, costume is explored in six thematic chapters, examining the transformative ritual of costuming; choruses as reflective of society; the grotesque, transgressive costume; the female sublime as emancipation; costume as sculptural art in motion; and the here-and-now as history. Viewing the material costume as a crucial aspect in the preparation, presentation and reception of live performance, the book brings together costumed performances through history. These range from ancient Greece to modern experimental productions, from medieval theatre to modernist dance, from the 'fashion plays' to contemporary Shakespeare, marking developments in both culture and performance. Revealing the relationship between dress, the body and human existence, and acknowledging a global as well as an Anglo and Eurocentric perspective, this book shows costume's ability to cross both geographical and disciplinary borders. Through it, we come to question the extent to which the material costume actually co-authors the performance itself, speaking of embodied histories, states of being and never-before imagined futures, which come to life in the temporary space of the performance. With a contribution by Melissa Trimmingham, University of Kent, UK

Shakespeare and Costume Mar 30 2022 Inspired by new approaches in performance studies, theatre history, research in material culture and dress history, a rich discussion of the many aspects of costume in Shakespearean performance has begun. Shakespeare and Costume furthers this research, bringing together varied and stimulating essays by leading scholars that consider costume from literary, dramatic, design, performative and theatrical perspectives, as well as interviews with renowned theatre practitioners Jane Greenwood and Robert Morgan. The volume amply demonstrates how an analysis of the meaning of costume enriches our understanding of Shakespeare's plays. Beginning with an overview of the stage history of Shakespeare and costume, the volume looks at the historical context of clothing in the plays, considering topics such as royal self-fashioning, festive livery practices, and conceptions of race and gender exhibited in clothing

choice, as well as costume in performance. Drawing on documentary evidence in designers' renderings, illustrations in periodicals, paintings, photographs, newspaper reviews and actors' memoirs, the volume also explores costume designs in specific Shakespeare productions from the re-opening of the London theatres in 1660 to the present day.
