Domestic Violence in Iran Oct 14 2020 This book offers a new methodological and theoretical approach to the highly sensitive and complicated issue of violence against women in contemporary Iran. Challenging the widespread notion that secularisation and modernisation are the keys to emancipating women, the author instead posits that domestic violence is deeply rooted in society and situated in the fundament of current discourses. Investigating how orthodox jurisprudence as mainstream discourse, together with social, legal and public norms, help to perpetuate the production and reproduction of physical, psychological, sexual and economical violence against women, the author presents and reflects upon narratives, experiences and the social realities accounting for domestic violence against women. Drawing on qualitative empirical research, she theorises that the notion of secularization and modernisation helping to overcome such violence is to some extent represented by Islamic feminism, secular feminism, and religious intellectualism, all of which are methodologically examined in the analysis. Challenging conventional wisdom regarding women's place in Iran and in wider Islamic society, this book offers a new insight into violence against Muslim women and as such will be an important addition to the existing literature in the areas of gender studies, Middle Eastern and Islamic studies, and Iranian studies.

[Science Teacher Education](#) Jul 11 2020 Analysis of past developments in teacher education in Pakistan has shown that substantial progress has been made in this field. It has, however, been pointed out that education of science teachers still needs much improvement. At the present, there is an emergent need to meet the shortage of qualified science teachers and at the same time to bring qualitative improvements in the courses offered in teacher education institutions. First, we recommend that the 1-year duration of teacher preparation is grossly inadequate for all teaching courses, and should be lengthened, and the qualifications for entrance be increased. We believe that teaching must be made a graduate profession. For example, the basic qualification of primary school teachers for admission to teacher education institution should be increased. We recommend that PTC should be made a 12 + 2 year program. Similarly, CT, 12 + 3; B. Ed. , 14 + 2; B. S. Ed. , 12 + 4; M. A. Ed. , 14 + 3; and M. Ed. one year after B. Ed. or B. S. Ed. Secondly, we think the quality of instruction in teacher preparation programs should be improved. Most teachers in the teacher preparation institutions use the lecture method most of the time. Prospective teachers behave like passive listeners to their teachers. They do not participate in the teaching/ learning process. Some instructors even dictate their notes to the preservice teachers. When the teachers join schools, they behave the same way.

[The Almanac of American Education 2020](#) Jul 03 2022 This completely updated edition of TheAlmanac of American Education helps users understand and compare the quality of education at the national, state, and county levels. Compiled from official U.S. government sources, this book contains historical and current data, insightful analysis, and useful graphs that provide compelling insights into the state of education in America. A LIFE TO REMEMBER Sep 24 2021 A Life to Remember This amazingly detailed memoir spans three continents and nearly a century of the life of Balawant Joshi. In it he recalls a journey beginning in a small village in southern India and ending in the southern United States. The son of a poor but brilliant school teacher and linguist, Joshi relates his beginnings at school, moving through hard-fought successes to the completion of the highest levels of education at Cambridge. Throughout the journey and for all his life, a philosophy of peace, regard for his fellow man, and an attitude of determination regardless of the pitfalls of life shine through his modest writing. Joshi expands on his long career in experimenting with plants and Natural Products for synthesis and use in pharmaceuticals in India, Switzerland, and the United States. He writes of family, weddings, and celebrations in India, and travels to many countries. He recalls a small but dangerous role he played in the fight for independence of India from Great Britain. Retired many years ago and living in Georgia, he loses his beloved wife, finds productive activity in a Natural Products, learns painting, and finds new friends and companionship throughout his senior years. Joshi is a great example for all of a life well lived and a love for humanity and a mind still keen and full of stories at the age of ninety.
