It begins with the most primitive crafts composed of slabs or logs and works up to scows, house-boats, skiffs, canoes and simple forms of sailing craft, a motor-boat, and there it stops. In writing and collecting this material for boat-builders from his other works and placing them in one volume, the author feels that he is offering a useful book to a large audience of new recruits to the army of

those who believe in the good old American doctrine of: If you want a thing done, do it yourself." (Dan Beard) Reprint of the original edition from 1931.
