The Right Letter Jan 17 2022 Replaces previous edition. In today's hectic world of cell phones, email, and instant messages, is it still worthwhile to know how to write a good letter? Absolutely! An attractive, well-written letter can grab the reader's attention and hold it long after someone else's email has been discarded. It can make a strong, lasting impression on a hiring manager, potential client, or faraway friend who receives it. In other words, the letter is still an important professional and personal communication tool, one that too few people know about these days. In this completely revised and updated edition of BETTER LETTERS, writing authority Jan Venolia dispenses expert advice on creating the perfect letter, covering composition, style, and format. With THE RIGHT LETTER! your message will rise above the rest. • This handy, portable addition to the Right! series (650,000 copies sold) is an important guide to effective letter writing, including a section on email. • With so many people complaining about the glut of email, spam, and misinformation, this reference is needed now more than ever. • Previous editions of BETTER LETTERS have sold more than 80,000 copies.

[Going Green, Grades 6-8](#) Jul 11 2021 Standards-based lessons to encourage students to take care of the environment by adapting the way they live and do things, beginning in the classroom. Each unit includes suggestion suggestions and adaptations to help ELL students and students in RTI (response to intervention) programs keep pace with the rest of the class.

Technology and Commercial Law Dec 24 2019

Windows Vista Jul 19 2019 As the official publication for Windows Vista, we cover Microsoft ' s latest OS with more depth, passion and clarity than any other magazine on the market. Each issue is packed with tips, tricks and service elements on every page. We give you an insider ' s tour of the operating system and illustrate how to get the most out of your PC.

Hong Kong Listed Companies: Law & Practice 2nd Edition Jan 25 2020 With the Stock Exchange of Hong Kong ' s Listing Rules being subject to constant review and revision, the author offers important updates on amendments and fresh regulations introduced since the first edition. Beginning with the basics – What is a public company? What is a stock exchange? Hong Kong Listed Companies: Law & Practice 2nd Edition works its way methodically through the SEHK ' s many provisions for regulation and compliance. It is a volume of depth and substance which sets the standard for financial industry reference books. Key Benefits For participants and stakeholders engaged in stock market activities, this second edition of Hong Kong Listed Companies: Law & Practice 2nd Edition is an essential companion, providing the ultimate guide with regard to the Stock Exchange of Hong Kong ' s (SEHK) exhaustive regulatory regime. Easy to follow, with information presented in logical order and plain language, this publication, expertly updated by experienced corporate finance lawyer Julia Charlton serves as an invaluable guide for seasoned practitioners, in-house counsel, chartered governance professional, accountants, other practitioners and students who require an understanding of the legal background and practical application of the rules and legislation that apply to listed companies. Other benefits included but not limited to: - Reduces time wastage and increases productivity by serving as a step-by-step guide to the understanding of the Listing Rules, the Securities and Futures Ordinance and the Companies Ordinance - Provides concise commentary on the law to aid readers in determining the best approach to adopt in line with their business needs - Case studies, diagrams, flow charts ease the company secretary ' s day to day workflow, by illustrating the rules and giving examples of their application. Key Features The new 2nd Edition delivers more than 400 pages of new, and up-to-date commentary in relation to the Hong Kong Listing Rules: - These include but not limited to extensive changes to the sponsor regulatory regime introduced in 2013 and the major listing reforms in 2018 which added three new chapters (Chapter 8A, 18C and 19A) to the listing rules aimed at attracting the listing of Pre-revenue Biotech and Innovative Companies, including those with Weighted Voting Rights (WVR) structures and providing a new secondary listing route for companies primary listed on certain Qualifying Exchanges. - More recent listing reforms in 2021 – covering the listing regime for overseas issuers, Special Purpose Acquisition Companies (SPAC), the SEHK ' s new Corporate Governance Code and the new requirements in relation to Environmental, Social and Governance (ESG) – are also highlighted. - How to handle ongoing obligations on listed companies under the Listing Rules. - Ongoing obligations on listed companies and their shareholders under other legislation, primarily the Securities and Futures Ordinance Cap. 671 (such as market misconduct, insider dealing, disclosure of interests). Topics Covered - Overview of the Hong Kong Market for Listed Companies - Requirements for Listing - Routes to Listing - Dual Primary and Secondary Listings (New) - Listing Companies with Weighted Voting Rights (New) - Listing Pre-Revenue Biotech Companies (New) - Listing Mineral Companies - IPOs – Sponsors and other IPO Parties - The IPO Process - Responsibilities and Liability - Disclosure and other Continuing Obligations - Notifiable Transactions - Reverse Takeovers and Cash Companies (New) - Connected Transactions - Corporate Governance and Environmental, Social and Governance (New) - GEM Listing Requirements and Continuing Obligations - Market Misconduct - Disclosure of Interests

[The Law of E-Commerce](#) May 29 2020 The Law of E-Commerce E-Contracts , E-Business Electronic commerce raises some legal issues, including whether the contract must be in a particular form or authenticated; validity, time and place of communication; cross-offers and battle of forms. This book analyses the legal problems relating to contracts formed on the Internet, including the use of electronic agents, the enforceability of clickwrap agreements, electronic payments, and choice-of-law and jurisdiction issues. These issues are considered from the UK common law point of view and according to the SICC, UNIDROIT Principles, PECL, UNCITRAL Model Law, and the Uniform Commercial Code.

Writing on the Moon Aug 24 2022 Writing on the Moon: Stories and Poetry from the Creative Unconscious by Psychoanalysts and Others is a collection of the best works published over the past fifteen years in the Creative Literary Section of Psychoanalytic Perspectives, along with imaginative introductions by the author. Some writings are raw and honest, some are dark and access our primal being. Others, filled with beauty, illuminate the internal life, the playful

mind, and unconscious doodlings that might otherwise remain unformulated.

Quantifying Quality in Primary Care Dec 04 2020 How can the quality of service provision and clinical governance in primary care be assessed? This book is designed to help evaluate the way practices interpret their legal obligations, the way the management systems within practices run, and the quality of the systems and processes that most affect the patient care. Quantifying Quality in Primary Care contains frameworks on which to build policies for the smooth running of practices and provides clear insights into attitudes of those working within them, and how to use this information to improve service provision. This straightforward, concise guide will help general practitioners, registrars and managers in primary care improve both service provision and management in the practice.

Paperless Trade: Opportunities, Challenges and Solutions Oct 26 2022 A "digital divide" threatens the global trade regime. And it is not narrowing; it is rapidly becoming an unbridgeable chasm. Nor is this a problem merely for developing countries: the headlong trend toward dematerialisation of trade documents in the developed world will grind to a halt unless all trading countries without exception possess the legal and operational ability to participate in paperless trade. This challenging work not only describes the obstacles to universal support for paperless trade, but also provides solutions that can be implemented if stakeholders make the collective effort to achieve this most desirable (and in fact necessary) goal. Dr. Laryea investigates such central issues as the following: legal problems and security risks not encountered in paper documentation; accommodating low-tech problems with electronic documentation; and funding the construction of information and communication technology infrastructure in developing countries. The presentation focuses on each of the essential contract documents in turn, from the quotation to the documentary credit, explaining exactly how the electronic versions of each work (particularly in terms of security), and why each is desirable. As the first comprehensive set of practical proposals, from a truly global perspective, for the speedy dematerialisation of trade documents, Paperless Trade is essential reading for traders, practitioners, academics, and national and international officials and policymakers engaged in facilitating world trade.

Fix IT May 21 2022 New technologies like AI, medical apps and implants seem very exciting but they too often have bugs and are susceptible to cyberattacks. Even well-established technologies like infusion pumps, pacemakers and radiotherapy aren't immune. Until digital healthcare improves, digital risk means that patients may be harmed unnecessarily, and healthcare staff will continue to be blamed for problems when it's not their fault. This book tells stories of widespread problems with digital healthcare. The stories inspire and challenge anyone who wants to make hospitals and healthcare better. The stories and their resolutions will empower patients, clinical staff and digital developers to help transform digital healthcare to make it safer and more effective. This book is not just about the bugs and cybersecurity threats that affect digital healthcare. More importantly, it's about the solutions that can make digital healthcare much safer.

Letters to an immigrant brother Jun 17 2019 Are you planning of leaving your country? Do you want to start a new life in another place in the world? Do you know what you will face? A text written in the form of entertaining letters addressed to a brother who dreams of emigrating. The brother is raising his doubts and questions, and the author answers them one by one in a simple, clear and transparent language, trying so that he becomes aware of the obstacles and difficulties that await him, on the one hand, and on the another, of the multiple opportunities that arise, and that by emotion or ignorance is not able to foresee.

The Impact of Covid-19 on the Future of Law Oct 22 2019 The chapters in this volume focus on the future of law and related disciplines: human rights and access to medical care, corruption and money laundering in state procurement, counterfeit medical products, IPR waiver on COVID-19 vaccines, emergency powers, freedom of expression, prison healthcare, the impact on labour law, access to courts and digital court processes, access to education and the impact on insurance law are but a few possible topics which are addressed.

Sustainable Graphic Design Mar 27 2020 The graphic artist's guide to sustainable design Graphic design is frequently thought of as a purely decorative effort. Yet these efforts can be responsible for shocking impacts on natural resources just to produce a barely-glanced-at catalog or mail piece. Sustainable Graphic Design: Tools, Systems, and Strategies for Innovative Print Design helps designers view graphic design as a holistic process. By exploring eco-conscious materials and production techniques, it shows designers how to create more effective and more sustainable designs. Sustainable Graphic Design opens your eyes to the bigger picture of design seen from the viewpoints of the audience, the creative vendor, their suppliers, and society as a whole. Chapters are written by a wide range of sustainable design pioneers and practitioners—including graphic designers, creative managers, marketing consultants, environmentalists, researchers, and psychologists—giving you critical information on materials and processes. Case studies illustrate and tie concepts together. Sustainability isn't a fad or a movement; it's a long-term paradigm shift. With this forward-looking toolkit, you'll be able to infuse your work with sustainability systems thinking, empowering you to play your role in achieving a future where design and sustainability are natural partners. Forum Nov 22 2019

Medical and Dental Space Planning May 09 2021 THE UPDATED DEFINITIVE REFERENCE ON MEDICAL AND DENTAL OFFICE DESIGN Medical and Dental Space Planning is an indispensable guide to the myriad of details that make a medical or dental practice efficient and productive. The unique needs of more than thirty specialties, as well as primary care, are explained in the context of new technology and the many regulatory and compliance issues influencing design. Concepts are also presented for ambulatory surgical centers, diagnostic imaging, clinical laboratories, breast care clinics, endoscopy centers, community health centers, radiation oncology, and single-specialty and multispecialty group practices and clinics. A thorough review of the latest dental technology and many creative space plans and design ideas for each dental specialty will be of interest to both dentists and design professionals. Important topics like infection control are top of mind, influencing every aspect of dental office design. An "inside look" at what goes on in each specialist's office will familiarize readers with medical and dental procedures, how they are executed, and the types of equipment used. Technology has radically impacted medical and dental practice: digital radiography, electronic health records, mobile health devices, point-of-care diagnostic testing, digital diagnostic instrumentation, CAD/CAM systems for digital dental impressions and milling of restorations in the dentist's office, portable handheld X-ray, and 3D cone beam computed tomography for dentists all have major implications for facility design. The influence of the Affordable Care Act is transforming primary

care from volume-based to value-based, which has an impact on the design of facilities, resulting in team collaboration spaces, larger consultative examination/assessment rooms, and accommodation for multidisciplinary practitioners who proactively manage patient care, often in a patient-centered medical home context. The wealth of information in this book is organized to make it easy to use and practical. Program tables accompany each medical and dental specialty to help the designer compute the number and sizes of required rooms and total square footage for each practice. This handy reference can be used during interviews for a "reality check" on a client's program or during space planning. Other features, for example, help untangle the web of compliance and code issues governing office-based surgery. Illustrated with more than 600 photographs and drawings, *Medical and Dental Space Planning* is an essential tool for interior designers and architects as well as dentists, physicians, and practice management consultants.

Covers the nuts and bolts of using a Mac at work, including synchronizing with multiple computers, backing up data, and communicating with Windows networks Goes beyond simple coverage of Microsoft Office or iWork to show you how to professionally create and interact with typical office systems and documents Provides best software and best practices for creating and using spreadsheets, word processing documents, and slide presentations on a Mac Gives you helpful guidelines and suggestions that can be lacking in an office where the IT department is focused primarily on PCs Find out the best ways to use your Mac in the office and get more productive than ever!

Ocean Bills of Lading Sep 25 2022 The main thrust of this volume is the use of electronic bills of lading in lieu of the traditional documents. The advantages of electronic bills of lading are many, including lower cost, higher efficiency, improved security, and speedier delivery of goods at the end of the voyage (the collection of reports focus upon bills of lading for the international carriage of goods by sea). According to the contributors, the use of electronic bills of lading is, essentially, a business rather than a legal decision. The law may provide the legal framework for the function of electronic bills of lading in the same way and with the same effects as the traditional bills of lading. However, business interests will eventually determine whether the availability of, and the economic incentives for, the use of the electronic bills of lading outweigh concerns for privacy and the safeguarding of trade secrets, for accuracy of information, and for security transactions and acquisition. Such concerns call for technological rather than legal solutions. This book should appeal primarily to practitioners who are interested in economics and commerce.

Discovering North Carolina Dec 16 2021 This splendid anthology offers an engaging journey through four centuries of North Carolina life. It draws on a wealth of sources--histories, biographies, diaries, novels, short stories, newspapers, and magazines--to show how North Carolina's rich history and remarkable literary achievements cut across economic and racial lines in often surprising ways. There are selections by or about some of the state's best-known sons and daughters, from Daniel Boone and Andrew Jackson to Ava Gardner, Doris Betts, and Tom Wicker; and topics covered include politics, sports, business, family life, education, race, religion, and war.

Participation in Community Work Jan 05 2021 Participation is a key community work method and this text, written by an international selection of authors, covers innovative approaches in community based education and practice. Including real-life case studies of participatory practice, it offers new definitions of community work, organisation and development and will challenge and inspire all those involved in community work practice and research. Divided into four parts, *Participation in Community Work* begins by exploring theoretical aspects of participation and the co-construction of knowledge, including the ethics of participation. The second part focuses on the potential of participatory learning and action research, with chapters presenting key techniques followed by case studies. The third part looks at power and participation, addressing issues of inclusivity, capacity and democracy-building and giving examples from a range of research and field projects. Finally, the fourth part begins the discussion of new and emerging challenges for community work globally. This unique book is suitable for students, researchers and practitioners interested in participation and community development from a range of disciplines, including community work itself through social work and youth work to health promotion.

Sustainable Construction Feb 18 2022 'Sustainable Construction' uses the latest US Green Building Council's Leadership in Energy and Environmental Design standard to explain the best practices in building procurement and delivery systems.

African perspectives on selected marine, maritime and international trade law topics Apr 27 2020 This book is the culmination of research collaboration between the Nelson Mandela University and the University of Johannesburg, and, in particular, between the South African Research Chair in the Law of the Sea and Development in Africa (housed at Nelson Mandela University) and the Centre for Banking Law (housed at the University of Johannesburg). The topics considered have their roots respectively in international law, environmental law, public law and international trade law. The common denominator is the sea.

Law in a Digital World Aug 20 2019 The world of law is a world of information. Rules, judgments, decisions, interpretations, and agreements all involve using and communicating information. Today, we are experiencing a significant transition, from letters fixed on paper to information stored electronically. The digital era, where information is created, stored, and communicated electronically, is quickly approaching, if not already here. The future of law will no longer be found in impressive buildings and leather-bound books, but in small pieces of silicon, in streams of light, and in millions of miles of wires and cable. It will be a world of new relationships and greater possibilities for individual and group communication, an environment where the value of information increases as it is shared. In *Law in a Digital world*, M. Ethan Katsh explores how these new technologies will alter one of our most central institutions. He considers the different ways in which people will not only electronically read and write, but also interact with our vast storehouses of legal knowledge and information. He envisions how sounds and pictures will play into the largely imageless print world of law, and looks at the future importance of graphic and nontextual communication. He explores how the flexible, personalized organization of data will transform the way we gather information, and whether information can or cannot be contained, raising questions of copyright and privacy. What happens to the law when information is more plentiful and accessible? What happens to those people who suddenly have access to information never before available? Does the use of information in a new form change the institution, the user, and those who come in contact with the user? And, what role does the lawyer play in all of this? For citizens, for lawyers, for all those who will be part of the digital world rushing toward us, Katsh answers these questions while considering the implications of this new era.

The Society for Worldwide Interbank Financial Telecommunication (SWIFT) Jun 10 2021 A PDF version of this book is available for free in open access via www.tandfebooks.com as well as the OAPEN Library platform, www.oopen.org. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license and is part of the OAPEN-UK research project. This book traces the history and development of a mutual organization in the financial sector called SWIFT, the Society for Worldwide Interbank Financial Telecommunication. Over the last forty years, SWIFT has served the financial services sector as proprietary communications platform, provider of products and services, standards developer, and conference organizer ("Sibos"). Founded to create efficiencies by replacing telegram and telex (or 'wires') for international payments, SWIFT now forms a core part of the financial services infrastructure. It is widely regarded as the most secure trusted third party network in the world serving 212 countries and over 10,000

banking organizations, securities institutions and corporate customers. Through every phase of its development, SWIFT has maintained the status of industry cooperative thus presenting an opportunity to study broader themes of globalization and governance in the financial services sector. In this book the authors focus on how the design and current state of SWIFT was influenced by its historical origins, presenting a comprehensive account in a succinct form which provides an informative guide to the history, structure, activities and future challenges of this key international organization. This work will be of great interest to students and scholars in a wide range of fields including IPE, comparative political economy, international economics, business studies and business history.

International Business Law and the Legal Environment Feb 06 2021 The fourth edition of International Business Law and the Legal Environment: A Transactional Approach gives business and law students a clear understanding of the legal principles that govern international business. This book goes beyond compliance by emphasizing how to use the law to create value and competitive advantage. DiMatteo ' s transactional approach walks students through key business transactions—from import and export, contracts, and finance to countertrade, dispute resolution, licensing, and more—giving them both context and providing real-world applications. More concise than previous editions, this new edition also features: • Added coverage of new technologies, such as smart contracts, digital platforms, and blockchain technology • Discussion of businesses and sustainability, climate change, and creating a circular economy • Greater focus on UNIDROIT Principles and a review of INCOTERMS 2020 • Expansion of common carrier coverage to include CMI trucking and CMR railway conventions • International perspective and use of a variety of national and international law materials • Great coverage of EU substantive law Upper-level undergraduate and postgraduate students of business law and international business will appreciate DiMatteo ' s lucid writing style, and professionals will find this book to be a comprehensive resource. Online resources include an instructor ' s manual, PowerPoint slides, test bank, and other tools to provide additional support for students and instructors.
