From Science Fiction to Science Facts Jan 05 2020 "FROM SCIENCE FICTION TO SCIENCE FACTS" is the non-fiction companion study guide to the fantastic science-fiction novel, "Accused By Facet-Eyes". It is a unique teaching/learning approach, which pairs literary entertainment with fascinating life science facts. Academic enrichment for nature-loving readers, middle-, high-school and college students. Intended for mainstream, supplementary and home schooling education. Readers will learn why honeybees are endangered worldwide; their pivotal role in pollination and will better appreciate the essential, mutual interdependence with humankind. Eye-opening life science facts point out important interactions of biology, chemistry and physics with contemporary issues in ecology and human-induced environmental hazards from a global, social perspective. "From Science Fiction To Science Facts" is a great time-saver for busy educators. Over 400 easily accessed references support the science facts; an overview of the science topics shows their relevance to the National Science Education Standards categories; the analytical format and discussion questions encourage critical thought and debates; C.B. Don's original, captivating photographs bring foraging honeybees on garden flowers to life!

Ask a Scientist (New Edition) Oct 06 2022 In this unique science book, Professor Robert Winston answers more than 100 real-life questions from children all around the world. Questions cover all the popular science topics, including the biology- "Why do freckles come in dots on your face?"; physics- "Could you jump off the world?"; Earth- "Why is the sky blue?"; chemistry- "Why are there bubbles in boiling water?"; natural science- "Do dogs cry?", and space- "Why will the Sun explode and make us extinct?". This new edition includes eight pages of additional questions relating to the recent hot topics in science, including the COVID-19 pandemic. Robert Winston was inspired to write this book by the many questions posed by his grandchildren and by children from the schools he has visited over the years. The book includes some of these questions, plus many more gathered from countries all over the world - including the UK, Ireland and mainland Europe, Canada, the USA, India, China, and Japan. The questions cover the main science topics- chemistry, physics, biology, Earth, space, and natural science. Packed with weird and wacky questions and clear and lively answers - Ask a Scientist puts the fun back into science. And who could be a better scientist to ask questions to than Professor Robert Winston?

Fast Answers to Common Questions Jul 31 2019 A guide to more than 4,500 commonly asked reference questions on a variety of subjects.

Holt Biology Jun 09 2020 A classroom textbook covers such biology topics as ecology, cells, heredity, evolution, microbes, plants, animals, and humans.

Pro-Life Answers to Pro-Choice Arguments Mar 19 2021 As politicians, citizens, and families continue the raging national debate on whether it's proper to end human life in the womb, resources like Randy Alcorn's Prolife Answers to Prochoice Arguments have proven invaluable. With over 75,000 copies in print, this revised and updated guide offers timely information and inspiration from a "sanctity of life" perspective. Real answers to real questions about abortion appear in logical and concise form. The final chapter -- "Fifty Ways to Help Unborn Babies and Their Mothers"-- is worth the price of this book alone!
