**Build Your Own Medical Optometry Practice: Part 1: Medical Knowledge Second Edition**

Apr 02 2022 Most Optometrists don't perform medical eye services, certainly not exclusively. You can develop a successful practice while providing a much needed service by bucking this trend. While practicing as an Optometrist and as an Ophthalmologist, he has seen many examples of poor medical care by Optometrists, himself included. He is convinced that it doesn't have to be this way. He believes Optometrists who start their own Medical Optometry Practice can fill an increasingly important function, but they need more knowledge and clinical experience, which he seeks to provide in this textbook, in his web site [www.theodmdconsultinggroup.com](http://www.theodmdconsultinggroup.com), in future courses and as a consultant to your Medical Optometry Practice.

Dr Olivia Pojer, a Western medical doctor and Chinese medicine practitioner, uses a dual approach to the largely unexplored treatment of male infertility. The book covers common causes of the topic, the microbiome of the testes, and how to encourage better sperm production. It also includes chapters on nutraceuticals and laser therapy, as well as herbal formulas and acupuncture protocols to implement in clinical practice, along with Chinese medical lifestyle and nutrition. Addressing the so-called male factor in reproduction and its underrepresentation in treatment, this book provides a complete overview for acupuncturists and Chinese medicine practitioners treating male infertility issues.
