The Eugenic Mind Project Jul 28 2019 An examination of eugenic thinking past and present, from forced sterilization to prenatal screening, drawing on experience with those who survived eugenics. Part science and part social movement, eugenics emerged in the late nineteenth century as a tool for human improvement. In response to perceived threats of criminality, moral degeneration, feeble-mindedness, and "the rising tide of color," eugenic laws and social policies aimed to better the human race by regulating reproductive choice through science and technology. In this book, Rob Wilson examines eugenic thought and practice--from forced sterilization to prenatal screening--drawing on his experience working with eugenics survivors. Using the social sciences' standpoint theory as a framework to understand the intersection of eugenics, disability, social inclusiveness, and human variation, Wilson focuses on those who have lived through a eugenic past and those confronted by the legacy of eugenic thinking today. By doing so, he brings eugenics from the distant past to the ongoing present. Wilson discusses such topics as the conceptualization of eugenic traits; the formulation of laws regulating immigration and marriage and requiring sexual sterilization; the depiction of the targets of eugenics as "subhuman"; the systematic construction of a concept of normality; the eugenic logic in prenatal screening and contemporary bioethics; and the incorporation of eugenics and disability into standpoint theory.

Narrating Poverty and Precarity in Britain Nov 11 2020 Poverty and precarity have gained a new societal and political presence in the twenty-first century's advanced economies. This is reflected in cultural production, which this book discusses for a wide range of media and genres from the novel to reality television. With a focus on Britain, its chapters divide their attention between current representations of poverty and important earlier narratives that have retained significant relevance today. The book's contributions discuss the representation of social suffering with attention to agencies of enunciation, ethical implications of 'voice' and 'listening', limits of narratability, the pitfalls of sensationalism, voyeurism and sentimentalism, potentials and restrictions inherent in specific representational techniques, modes and genres; cultural markets for poverty and precarity. Overall, the book suggests that analysis of poverty narratives requires an intersection of theoretical reflection and a close reading of texts.

Rethinking Society in the 21st Century, Fourth Edition Sep 29 2019 Rethinking Society in the 21st Century is a critical collection of readings that provides students with a foundational knowledge base in sociology. The fourth edition has been thoroughly updated to include significant Canadian content, with a greater focus on indigeneity, gender, and sexuality and a new section dedicated to social movements, social change, and emerging fields. This anthology introduces students to the fundamental elements of sociology with a balance of classical theory--Marx, Weber, Durkheim, Mills--and more contemporary approaches found in the works of Michel Foucault and Dorothy Smith. Building on this theoretical grounding, the text outlines core concepts in sociology as well as major social institutions such as families, the economy and labour, education, health care, and media. Covering a wide breadth of topics, including chapters on animals, the environment, crime, trans issues, class, ethnicity, and race, this new edition explores critical debates in Canadian society with an emphasis on intersectional approaches to social inequalities. This volume is rich with pedagogical features that promote critical understanding, including detailed introductions that speak to the contextual history of the source material and discussion questions for each section. Uniquely designed for introductory courses, Rethinking Society in the 21st Century is the ideal reader for Canadian students of sociology.

[Marveling with Mark](#) Oct 11 2020 "Who is This? Even the Wind and the Waves Obey Him!" (Mark 4:41) Who is Jesus? What did he come to accomplish? And what difference does it make in the way I live my life? You will find the answers to these and other questions in this homiletical commentary by expository preacher and Bible college professor Steven Crane. The Gospel of Mark is the gospel about the good news of Jesus Christ. It is a fast-paced, action-packed book--as is this scholarly, yet highly readable commentary. Readers will gain a new appreciation for the content, the organization, and the often-overlooked writing techniques incorporated by Mark into his narrative, and will be invited to apply Scripture in their personal lives. As you read, you will investigate the true nature of Jesus Christ. While some today try to deny Christ's divinity, explain away his miracles, or discredit the authority of the Word of God--Crane handles these attacks and gives credence to the time-held truths regarding the Son of Man and the inspiration of Scripture. This volume, written in sermon form, provides clear explanations regarding even the most difficult of Bible passages and includes study questions at the end of each chapter that are suitable for either personal or group use. Readers who have discounted the importance of Mark will be compelled to look at it with fresh eyes and will gain a new appreciation for our second Gospel. As you study, be ready to allow God to work in your life and Marvel with Mark at the person and purpose of Jesus.
