Abortion Counseling Mar 17 2021 The majority of women who have had abortions report feeling happy, satisfied, and relieved following their abortion. Some few women who have had an abortion may experience some feelings of guilt and sadness; however, this rarely lasts longer than a few days. Those very few women who present with prolonged feelings of sadness and mental health problems are women who have either had these problems prior to their abortion, had other risk factors, or were influenced by frightening demonstrations and inaccurate biased information provided prior to the abortion. Through this book the authors hope to train general therapists and counselors in pre- and post-abortion counseling techniques--to avoid women experiencing unnecessary psychological problems created by those who insist that the non-existent "post-abortion syndrome" exists. "Abortion counseling has a critical role to play in ensuring women's mental health is the priority and not the goals of a political agenda. Thus, Needle and Walker have taken on a complex, profound and essential task -- equipping therapists and abortion counselors with the knowledge and skills needed to help their clients -- and they have done it well. Readers of this book should [gain] an increased understanding of how women's diverse life circumstances affect their ability to cope with the difficult decisions and circumstances surrounding abortion. They will also be better able to build women's resilience and coping skills by having considered them both in the context of women's lives (e.g., coping resources, social support, partner violence, incidence of depression), and in the context of socio-political agendas that seek to manipulate women's mental health in order to undermine women's reproductive rights....In the final analysis, it is important to remember that abortion counseling is not about abortion - it is about women confronting the decision to bear a child - with all of the profound and life changing commitments and responsibilities that entails." -- From the Foreword by Nancy Felipe Russo, PhD, Regents Professor of Psychology, Arizona State University

God's Perfect Child (Twentieth Anniversary Edition) Jan 03 2020 From Pulitzer Prize-winning author and former Christian Scientist Caroline Fraser comes the first unvarnished account of one of America's most controversial and little-understood religious movements. Millions of Americans - from Lady Astor to Ginger Rogers to Watergate conspirator H. R. Haldeman - have been touched by the Church of Christ, Scientist. Founded by Mary Baker Eddy in 1879, Christian Science was based on a belief that intense contemplation of the perfection of God can heal all ills - an extreme expression of the American faith in self-reliance. In this unflinching investigation, Caroline Fraser, herself raised in a Scientist household, shows how the Church transformed itself from a small, eccentric sect into a politically powerful and socially respectable religion, and explores the human cost of Christian Science's remarkable rise. Fraser examines the strange life and psychology of Mary Baker Eddy, who lived in dread of a kind of witchcraft she called Malicious Animal Magnetism. She takes us into the closed world of Eddy's followers, who refuse to acknowledge the existence of illness and death and reject modern medicine, even at the cost of their children's lives. She reveals just how Christian Science managed to gain extraordinary legal and Congressional sanction for its dubious practices and tracks its enormous influence on new-age beliefs and other modern healing cults. A passionate exposé of zealotry, God's Perfect Child tells one of the most dramatic and little-known stories in American religious history.

Crypt 33: Dec 02 2019 The shocking truth behind the death of an American icon—and the conspiracies that kept it secret for decades—in "the best autopsy of Marilyn Monroe" (Cyril H. Wecht, MD, JD) In her tragically short life, Marilyn Monroe embodied American womanhood, innocence, and lust—both as a Hollywood star and in the shadows of her tormented soul. But when she was found naked and dead on the morning of August 5, 1962, she became the subject of a mystery that has perplexed the world for generations. Was her death an accident? Suicide? Or murder? In *Crypt 33*, two Los Angeles private investigators recount the startling evidence that may solve the case once and for all, finally revealing the truth about: Monroe's affairs with JFK and Robert Kennedy . . . The identity of the friend who allowed Monroe's killers into her home . . . Evidence of the deadly drugs and how they were administered to the starlet . . . The rumors of an assassination plot masterminded by the Cosa Nostra and high-ranking government officials . . . The tangled web of wiretaps in Monroe's home—and what happened to the audio tape recording of her murder . . . Now, at last, the truth of Monroe's shocking death can be told in a book that "makes the hardest case yet that Marilyn was the victim of foul play" (Kirkus Reviews). "Well and sympathetically told . . . Speriglio and Gregory are fluent, convincing writers." —Publishers Weekly

An Unlikely Saint Sep 10 2020 Figuratively speaking this is a "rags to riches" story. It tells of a person who, in his youth, was a loner and an avowed atheist. He had no time for anyone but himself. He rebuffed all attempts by his neighbors to be friendly. He had a very peculiar habit later in life that was puzzling to the citizens of his town. Thrust upon him during his declining years by a "pushy" social worker was a baby whom he was expected to rear. Something happened on one occasion that changed him into another personality. From that point on not only was his personality changed but also his mode of life. Along the way many odd situations arise which captivate the attention of the reader, causing him or her to wonder what is going to happen next. The main character sees needs in his home town, needs to which no other citizen had given a thought. With the tenacity of a pit bull he tackles those needs. Figured in the plot of this book is a woman with the vocabulary of the proverbial sailor but who is a "diamond in the rough". This book is designed for enjoyable reading.

Game On Jan 27 2022 A first-of-its-kind investigative book on the least examined and most important topic in sports today. Youth sports isn't just orange slices and all-star trophies anymore. It's 14-year-olds who enter high school with a decade of football experience, 9-year-olds competing for national baseball championships, 5-year-old golfers who shoot par, and toddlers made from sperm donated (for a fee) by elite college athletes. It's a year-round "travel team" in every community--and parents who fear that not making the cut in grade school will cost their kid the chance to play in high school. In short, a landscape in which performance often matters more than participation, all the way down to peewee basketball. Much as Fast Food Nation challenged our eating habits and Silent Spring rewired how we think about the environment, Tom Farrey's Game On will forever change the way we look at this desperate culture besotted by the example of Tiger Woods. An Emmy award-winning reporter, Farrey examines the lives of child athletes and the consequences of sorting the strong from the weak at ever earlier ages: fewer active kids, testier sidelines, rising obesity rates, and U.S. national teams that rarely win world titles. He dives into the world of these games that are played by more than 30 million boys and girls, and along the way uncovers some surprising truths. When the very best athletes enter organized play. The best approach to coaching them. And the powerful influence of wealth and genetics. Farrey has written a surprising, alarming, thoughtful, and ultimately empowering book for anyone who wants the best for the newest generation of Americans, as athletes and citizens. From the Hardcover edition.
