**Criminal Procedure** Sep 12 2020 **Criminal Procedure: Doctrine, Application, and Practice** by Jens David Ohlin is designed to respond to the changing nature of teaching law by offering a flexible approach with an emphasis on application. Each chapter focuses on Supreme Court cases that articulate the constitutional requirements, while call-out boxes outline statutes or state constitutional law provisions that impose more stringent rules. Short problem cases, also in boxes, ask students to apply these principles to new fact patterns. Each chapter ends with a Practice and Policy section that delves deeper into the conceptual and practical obstacles to the realization of procedural rights in the daily practice of criminal law. The result is a modular format, presented in a lively visual style, which recognizes and supports the diverse pedagogical approaches by today's leading criminal procedure professors. Professors and students will benefit from: A mixture of classic and new Supreme Court cases on criminal procedure Call-out boxes that outline statutory requirements Call-out boxes that focus on more demanding state law rules Problem cases that require students to apply the law to new facts A Practice and Policy section which allows a deeper investigation of doctrinal and policy controversies, but whose placement at the end of each chapter maximizes instructors' freedom to focus on the materials that most interest them Notes and questions, inviting closer examination of doctrine and generate class discussion Innovative pedagogy, emphasizing application of law to facts (while still retaining enough flexibility so as to be useful for a variety of professors with different teaching styles) Logical organization and manageable length Open, two-color design with appealing visual elements (including carefully-selected photographs)

**Studies in Temporal Urbanism** Jul 11 2020 This book is very much about what the name urbanTick literally says, about the ticking of the urban, the urban as we experience it everyday on the bus, in the park or between buildings. It is about the big orchestrated mass migration of commuters, the seasonal blossoms of the trees along the walkway and the frequency of the stamping rubbish-eater-trucks. It is also, not to forget, about climate, infrastructure, opening hours, term times, parking meters, time tables, growing shadows and moon light. But most of all it is about how all this is experienced by citizens on a daily basis and how they navigate within this complex structure of patterns. The content of this book is based on the content of the urbanTick blog between 2008-2010. One year blogging about this topic brought together a large collection of different aspects and thoughts. It is not at all a conclusive view, the opposite might be the case, it is an exploratory work in progress, while trying to capture as many facets of the topic as possible.

**The Convenient Patsy** Feb 04 2020 Don't mess with the hothead—or he might just mess with you. Slater Ibáñez is only interested in two kinds of guys: the ones he wants to punch, and the ones he sleeps with. Things get interesting when they start to overlap. A freelance investigator, Slater trolls the dark side of Los Angeles, rooting out insurance fraud, not afraid to use whatever means necessary to get things done, and not about to hold back with his fists. A queer antihero for a new age, Slater walks the line between ordinary life and the frayed fringes of society, keeping his balance with the back-channel support he gets from his idiot cop ex-boyfriend, Conrad, and regular squeeze Andy. When the narrator of his favorite podcast lands in the City of Angels and asks for help to find a missing colleague, Slater takes the case, and soon finds himself working undercover—as security on a trashy reality TV show, then as a paparazzo wielding a camera to snap images of a vapid pop star. As he circles closer to finding out what happened to the disappeared geologist, Slater trolls oil industry thugs, tangles with well-armed and tight-lipped witnesses, and digs into the city's wealthy beachside enclaves. Things heat up when one of his targets attempts a frame job. Slater hustles to keep clear of it, all the while drinking way too much, dealing with lowlifes who tend to punch back, and struggling to keep his sex life out of his work.
