Sourcebook in the History of Philosophy of Language Jun 01 2022 For the first time in English, this anthology offers a comprehensive selection of primary sources in the history of philosophy of language. Beginning with a detailed introduction contextualizing the subject, the editors draw out recurring themes, including the origin of language, the role of nature and convention in fixing form and meaning, language acquisition, ideal languages, varieties of meanings, language as a tool, and the nexus of language and thought, linking them to representative texts. The handbook moves on to offer seminal contributions from philosophers ranging from the pre-Socratics up to John Stuart Mill, preceding each major historical section with its own introductory assessment. With all of the most relevant primary texts on the philosophy of language included, covering well over two millennia, this judicious, and generous, selection of source material will be an indispensable research tool for historians of

philosophy, as well as for philosophers of language, in the twenty-first century. A vital tool for researchers and contemporary philosophers, it will be a touchstone for much further research, with coverage of a long and varied tradition that will benefit today's scholars and enhance their awareness of earlier contributions to the field.

Coming to Terms with Chinese Buddhism Jul 22 2021 The issue of sinification—the manner and extent to which Buddhism and Chinese culture were transformed through their mutual encounter and dialogue—has dominated the study of Chinese Buddhism for much of the past century. Robert Sharf opens this important and far-reaching book by raising a host of historical and hermeneutical problems with the encounter paradigm and the master narrative on which it is based. Coming to Terms with Chinese Buddhism is, among other things, an extended reflection on the theoretical foundations and conceptual categories that undergird the study of medieval Chinese Buddhism. Sharf draws his argument in part from a meticulous historical, philological, and philosophical analysis of the Treasure Store Treatise (Pao-tsang lun), an eighth-century Buddhō-Taoist work apocryphally attributed to the fifth-century master Seng-chao (374-414). In the process of coming to terms with this recondite text, Sharf ventures into all manner of subjects bearing on our understanding of medieval Chinese Buddhism, from the evolution of T'ang "gentry Taoism" to the pivotal role of image veneration and the problematic status of Chinese Tantra. The volume includes a complete annotated translation of the Treasure Store Treatise, accompanied by the detailed exegesis of dozens of key terms and concepts.

United States Code Aug 30 2019 "The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--Preface.
