Nazi Princess Oct 23 2021 Born to a middle-class Viennese family and of partly Jewish descent, after marriage to (and divorce from) a German prince, Stephanie von Hohenlohe became a close confidante of Hitler, Goring, Himmler (who declared her an 'honorary Aryan') and von Ribbentrop. After arriving in London in 1932, she moved in the most exclusive circles, arranging the visits of the Duke and Duchess of Windsor and Lord Halifax to Germany in 1937. Most notoriously, she was paid a retainer of £5,000 per year by Lord Rothermere, owner of the Daily Mail and the Daily Mirror, who was an open supporter of the Nazi regime. In 1939 she fled to the USA; a memo to President Roosevelt described her as a spy 'more dangerous than ten thousand men'. In this new biography, Jim Wilson uses recently declassified MI5 files and FBI memos to examine what motivated both Stephanie and Rothermere, shedding light on the murky goings-on behind the scenes in Britain, Germany and the USA before and during the Second World War.

Being for Beauty Dec 01 2019 No values figure as pervasively and intimately in our lives as beauty and other aesthetic values. They animate the arts, as well as design, fashion, food, and entertainment. They orient us upon the natural world. And we even find them in the deepest insights of science and mathematics. For centuries, however, philosophers and other thinkers have identified beauty with what brings pleasure. Concerned that aesthetic

hedonism has led us to question beauty's significance, Dominic McIver Lopes offers an entirely new theory of beauty in this volume. Beauty engages us in action, in concert with others, in the context of social networks. Lopes's 'network theory' explains the social dimension of aesthetic agency, the tie between beauty and pleasure, the importance of disagreement in matters of taste, and the reality of aesthetic values as denizens of the natural world. The two closing chapters shed light on why aesthetic engagement is so important to quality of life, and why it deserves (and gets) lavish public support. Being for Beauty offers a fresh contribution to aesthetics but also to thinking about metanormativity, the metaphysics of value, and virtue theory.

Strategies that Work Jul 20 2021 In this new edition of their groundbreaking book *Strategies That Work*, Stephanie Harvey and Anne Goudvis share the work and thinking they've done since the second edition came out a decade ago and offer new perspectives on how to explicitly teach thinking strategies so that students become engaged, thoughtful, independent readers. Thirty new lessons and new and revised chapters shine a light on children's thinking, curiosity, and questions. Steph and Anne tackle close reading, close listening, text complexity, and critical thinking in a new chapter on building knowledge through thinking-intensive reading and learning. Other fully revised chapters focus on digital reading, strategies for integrating comprehension and technology, and comprehension across the curriculum. The new edition is organized around three sections: Part I provides readers with a solid introduction to reading comprehension instruction, including the principles that guide practice, suggestions for text selection, and a review of recent research that underlies comprehension instruction. Part II contains lessons to put these principles into practice for all areas of reading comprehension. Part III shows you how to integrate comprehension instruction across the curriculum and the school day, particularly in science and social studies. Updated bibliographies, including the popular "Great Books for Teaching Content," are accessible online. Adirondack Prints and Printmakers Aug 09 2020 Since the late eighteenth century, the Adirondacks—first characterized as a "Dismal Wilderness" and then a "Sportsman's Paradise"—has challenged cartographers, scientists, sportsmen, travelers, and artists. In a volume that covers nearly three hundred years of artistic achievement, Adirondack Museum curator Caroline M. Welsh includes essays that were originally presented at the 1995 North American Print Conference at the Adirondack Museum. Comprehensive in scope and lavishly illustrated, the book embodies the artistic spectrum from the documentary to the aesthetic. Paintings of Adirondack scenery were frequently reproduced as prints. Lithographs after original paintings disseminated affordable fine art to a broad middle class, exemplifying a pervasive nineteenth-century faith that art. By 1850, this northern expanse became a sanctuary for artists. Inspired by the drama of the landscape, the purity of the light, and the grandeur of its rugged wilderness, artists flocked to the region. From Winslow Homer, Dr. Arpad Gerster, and the French naturalist Jacques Gerard Milbert to Canadian artist David Milne, Adirondack Prints and Printmakers underscores the importance of the wilderness landscape in American art and culture and the role that prints have played to document, promote, and celebrate the Adirondacks.

The Lazarus Files Oct 03 2022 A deeply-reported, riveting account of a cold case murder in Los Angeles, unsolved until DNA evidence implicated a shocking suspect – a female detective within the LAPD's own ranks. On February 24, 1986, 29-year-old newlywed Sherri Rasmussen was murdered in the home she shared with her husband, John. The crime scene suggested a ferocious struggle, and police initially assumed it was a burglary gone awry. Before her death, Sherri had confided to her parents that an ex-girlfriend of John's, a Los Angeles police officer, had threatened her. The Rasmussens

urged the LAPD to investigate the ex-girlfriend, but the original detectives only pursued burglary suspects, and the case went cold. DNA analysis did not exist when Sherri was murdered. Decades later, a swab from a bite mark on Sherri's arm revealed her killer was in fact female, not male. A DNA match led to the arrest and conviction of veteran LAPD Detective Stephanie Lazarus, John's onetime girlfriend. *The Lazarus Files* delivers the visceral experience of being inside a real-life murder mystery. McGough reconstructs the lives of Sherri, John and Stephanie; the love triangle that led to Sherri's murder; and the homicide investigation that followed. Was Stephanie protected by her fellow officers? What did the LAPD know, and when did they know it? Are there other LAPD cold cases with a police connection that remain unsolved?

A New Plantation World Mar 04 2020 In the era between the world wars, wealthy sportsmen and sportswomen created more than seventy large estates in the coastal region of South Carolina. By retaining select features from earlier periods and adding new buildings and landscapes, wealthy sporting enthusiasts created a new type of plantation. In the process, they changed the meaning of the word 'plantation', with profound implications for historical memory of slavery and contemporary views of the South. *A New Plantation World* is the first critical investigation of these 'sporting plantations'. By examining the process that remade former sites of slave labor into places of leisure, Daniel Vivian explores the changing symbolism of plantations in Jim Crow-era America.

Horror Film and Otherness May 18 2021 What do horror films reveal about social difference in the everyday world? Criticism of the genre often relies on a dichotomy between monstrosity and normality, in which unearthly creatures and deranged killers are metaphors for society's fear of the "others" that threaten the "normal." The monstrous other might represent women, Jews, or Blacks, as well as Indigenous, queer, poor, elderly, or disabled people. The horror film's depiction of such minorities can be sympathetic to their exclusion or complicit in their oppression, but ultimately, these images are understood to stand in for the others that the majority dreads and marginalizes. Adam Lowenstein offers a new account of horror and why it matters for understanding social otherness. He argues that horror films reveal how the category of the other is not fixed. Instead, the genre captures ongoing metamorphoses across "normal" self and "monstrous" other. This "transformative otherness" confronts viewers with the other's experience—and challenges us to recognize that we are all vulnerable to becoming or being seen as the other. Instead of settling into comforting certainties regarding monstrosity and normality, horror exposes the ongoing struggle to acknowledge self and other as fundamentally intertwined. *Horror Film and Otherness* features new interpretations of landmark films by directors including Tobe Hooper, George A. Romero, John Carpenter, David Cronenberg, Stephanie Rothman, Jennifer Kent, Marina de Van, and Jordan Peele. Through close analysis of their engagement with different forms of otherness, this book provides new perspectives on horror's significance for culture, politics, and art.

Female Innovators Who Changed Our World Dec 13 2020 We are not all born with equal opportunities. Yet there have been countless of women who have overcome a range of barriers such as prejudice, illness, and personal tragedy to advance our understanding of science, technology, engineering, and mathematics (STEM). They used their knowledge to change the world, and their stories are fascinating. This book offers a concise introduction of the lives of 46 women, taking you into the cultural and social context of the world they lived in. Through their intelligence, courage, and resilience, they used STEM to defy expectations and inspire generations to follow in their footsteps. Some of them invented items we use day-to-day and discovered causes and treatments for epidemics that ostracised whole sections of society, whilst others campaigned for the reproductive rights of women and harnessed mathematics to send people into space and break ciphers. These women are proof that females can and did have a hugely significant role in shaping the world we live in today.

The Games Lovers Play May 06 2020 #1 New York Times bestselling author Stephanie Laurens returns to the Cynsters' next generation with an evocative tale of two people striving to overcome unusual hurdles in order to claim true love. A nobleman wedded to the lady he loves strives to overwrite five years of masterful pretence and open his wife's eyes to the fact that he loves her as much as she loves him. Lord Devlin Cader, Earl of Alverton, married Therese Cynster five years ago. What he didn't tell her then and has assiduously hidden ever since—for what seemed excellent reasons at the time—is that he loves her every bit as much as she loves him. For her own misguided reasons, Therese had decided that the adage that Cynsters always marry for love did not necessarily mean said Cynsters were loved in return. She accepted that was usually so, but being universally viewed by gentlemen as too managing, bossy, and opinionated, she believed she would never be loved for herself. Consequently, after falling irrevocably in love with Devlin, when he made it plain he didn't love her yet wanted her to wife, she accepted the half love-match he offered, and once they were wed, set about organizing to make their marriage the very best it could be. Now, five years later, they are an established couple within the haut ton, have three young children, and Devlin is making a name for himself in business and political circles. There's only one problem. Having attended numerous Cynster weddings and family gatherings and spent time with Therese's increasingly married cousins, who with their spouses all embrace the Cynster

ideal of marriage based on mutually acknowledged love, Devlin is no longer content with the half love-match he himself engineered. No fool, he sees and comprehends what the craven act of denying his love is costing both him and Therese and feels compelled to rectify his fault. He wants for them what all Therese's married cousins enjoy-the rich and myriad benefits of marriages based on acknowledged mutual love. Love, he's discovered, is too powerful a force to deny, leaving him wrestling with the conundrum of finding a way to convincingly reveal to Therese that he loves her without wrecking everything-especially the mutual trust-they've built over the past five years. A classic historical romance set amid the glittering world of the London haut ton. A Cynster Next Generation novel-a full-length historical romance of 110,000 words.

Vanguard Nov 04 2022 The epic history of African American women's pursuit of political power -- and how it transformed America. In the standard story, the suffrage crusade began in Seneca Falls in 1848 and ended with the ratification of the Nineteenth Amendment in 1920. But this overwhelmingly white women's movement did not win the vote for most black women. Securing their rights required a movement of their own. In Vanguard, acclaimed historian Martha S. Jones offers a new history of African American women's political lives in America. She recounts how they defied both racism and sexism to fight for the ballot, and how they wielded political power to secure the equality and dignity of all persons. From the earliest days of the republic to the passage of the 1965 Voting Rights Act and beyond, Jones excavates the lives and work of black women -- Maria Stewart, Frances Ellen Watkins Harper, Fannie Lou Hamer, and more -- who were the vanguard of women's rights, calling on America to realize its best ideals.
