[The Story of English in India](#) Aug 23 2022 With globalization, English has become an economic necessity and Indians have realized that they have the 'English advantage' over many other countries like China and Japan. India has shed its colonial complexes towards English and has come to terms with the language; Indians have separated the English language from the English. The Story of English in India presents historical facts in a socio-cultural framework. The book is a must for all teachers and students of English; it will be useful for all those interested in the politics of language and education in India. Key issues discussed: - Are we indebted to the British for introducing English in India? - What was the role of English during India's struggle for freedom? - Has English united India? - Has English divided India into two - the English knowing classes who govern and the non-English knowing masses who are governed? - Will English ever become an Indian tongue spoken in the great Indian language bazaar? - What will be the future of major Indian languages in the wake of the English onslaught? Will it end in linguistic imperialism and cultural colonialism?

Challenges in Language Testing Around the World Jan 16 2022 This book combines insights from language assessment literacy and critical language testing through critical analyses and research about challenges in language assessment around the world. It investigates problematic practices in language testing which are relevant to language test users such as language program directors, testing centers, and language teachers, as well as teachers-in-training in Graduate Diploma and Master of Arts in Applied Linguistics programs. These issues involve aspects of language testing such as test development, test administration, scoring, and interpretation/use of test results. Chapters in this volume discuss insights about language testing policy, testing world languages, developing program-level language tests and tests of specific language skills, and language assessment literacy. In addition, this book identifies two needs in language testing for further examination: the need for collaboration between language test developers, language test users, and language users, and the need to base language tests on real-world language use.

Transfer Thinking in Translation Studies Feb 17 2022 The concept of transfer covers the most diverse phenomena of circulation, transformation and reinterpretation of cultural goods across space and time, and are among the driving forces in opening up the field of translation studies. Transfer processes cross linguistic and cultural boundaries and cannot be reduced to simple movements from a source to a target (culture or text). In a time of paradigm shifts, this book aims to explore the potential and interdisciplinary power of transfer as a concept and an analytical tool to account for complex cultural dynamics. The contributions in this book adopt various research angles (literary studies, imagology, translation studies, translator studies, periodical studies, postcolonialism) to study an array of entangled transfer processes that apply to different objects and aspects, ranging from literary texts, legal texts, news, images and identities to ideologies, power asymmetries, titles and heterolingualisms. By embracing a process-oriented way of thinking, all these contributions aim to open the 'black box' of transfer in the widest sense.

The Colonial Rise of the Novel Dec 15 2021 In this challenging book, Firdous Azim, provides a feminist critique of orthodox accounts of the rise of the novel' and exposes the underlying orientalist assumptions of the early English novel. Whereas previous studies have emphasized the universality of the coherent and consistent subject which found expression in the novels of the eighteenth century, Azim demonstrates how certain categories: women and people of colour, were silenced and excluded. The Colonial Rise of the Novel makes an important and provocative contribution to post-colonial and feminist criticism. It will be essential reading for all teachers and students of English literature, women's studies, and post-colonial criticism.

Changing the Curriculum Nov 14 2021 The Target Oriented Curriculum (TOC) is arguably the most comprehensive, fundamental and controversial attempt to promote systemic curriculum reform in Hong Kong. It aimed at a radical change in the nature of knowledge, pedagogy and assessment in schools. After an initial phase of confusion and criticism, this ambitious reform was revamped and vigorously promoted, but within a few years, it totally lost momentum as other educational issues attracted the attention of policy-makers. This book traces the career of TOC and studies the impact of the reform on the education system, subjects, schools and teachers. Drawing on a four-year multi-level research project, the chapters provide a deep understanding of the complex nature of educational reform and how a new curriculum is interpreted, developed and implemented. Besides providing a fascinating portrayal of the experiences of the TOC reform, this book offers lessons for future curriculum change in Hong Kong and elsewhere. 'This', writes Ivor Goodson in the Foreword, 'is curriculum research at its best.'

The Fellowship Sep 12 2021 C. S. Lewis is the 20th century's most widely read Christian writer and J.R.R. Tolkien its most beloved mythmaker. For three decades, they and their closest associates formed a literary club known as the Inklings, which met every week in Lewis's Oxford rooms and in nearby pubs. They discussed literature, religion, and ideas; read aloud from works in progress; took philosophical rambles in woods and fields; gave one another companionship and criticism; and, in the process, rewrote the cultural history of modern times. In *The Fellowship*, Philip and Carol Zaleski offer the first complete rendering of the Inklings' lives and works. The result is an extraordinary account of the ideas, affections and vexations that drove the group's most significant members. C. S. Lewis accepts Jesus Christ while riding in the sidecar of his brother's motorcycle, maps the medieval and Renaissance mind, becomes a world-famous evangelist and moral satirist, and creates new forms of religiously attuned fiction while wrestling with personal crises. J.R.R. Tolkien transmutes an invented mythology into gripping story in *The Lord of the Rings*, while conducting groundbreaking Old English scholarship and elucidating, for family and friends, the Catholic teachings at the heart of his vision. Owen Barfield, a philosopher for whom language is the key to all mysteries, becomes Lewis's favorite sparring partner, and, for a time, Saul Bellow's chosen guru. And Charles Williams, poet, author of "supernatural shockers," and strange acolyte of romantic love, turns his everyday life into a mystical pageant. Romantics who scorned rebellion, fantasists who prized reality, wartime writers who believed in hope, Christians with cosmic reach, the Inklings sought to revitalize literature and faith in the twentieth century's darkest years-and did so in dazzling style.
