An Ethnography of Global Landscapes and Corridors Apr 19 2021 The chapters presented in this book draw on ethnography as a methodology in a variety of disciplines, including education, management, design, marketing, ecology and scientific contexts, illustrating the value of a qualitative approach to research design. The chapters discuss the use of traditional ethnographic methods, such as immersion, observation and interview, as well as innovative ethnographical methods which have been influenced by the new digital culture. The latter challenges notions of identity, field and traditional culture such that people are able to represent themselves in the research process rather than be represented. New approaches to ethnography also examine the use and implication of images in representation as well as critically examining the role and impact of the researcher in the process.

America's Priorities Jul 03 2022 Could there be anything more exciting and blessed assurance in our life than knowing that the creator of the universe loves us? That is what this book "God's love in 3-dimensions" is about, God's love for us, and His designed purpose for our lives; Reflecting back over more than forty years of service in the Body of Christ; I have found the most important things to be taught and expressed, to bring love and unity, and success to the life of the Church, and to our personal lives are, "God's love for us," "Our love for God," and "Our love for one another." For the success and the life of the Church, and for our personal lives, God's love must prevail. "God's Love in 3-dimensions" reiterates the plea of the writings of our Lord's Apostles, and the prayer of our Lord, for love and unity. The apostles of our Lord pleaded for us throughout the scriptures to have love and unity through the Spirit of God's love. Jesus our Lord prayed for God's unity and love for His followers; "that all of them may be one, Father, just as you are in Me and I am in You." "I have made You known to them, and will continue to make You known in order that the love You have for Me may be in them and that I Myself may be in them."(John 17:21&26). What great accomplishments and success await us when we walk in unity with our Lord and Heavenly Father. The greatness of God's love, joy and peace fills our hearts, souls and minds, providing divine direction and assurance as we walk in our Lord's Spirit of love. And what great accomplishments have been made by the body of Christ when our Lord's love and unity prevail among His body members, when working together in the directives and spirit of their Lord. What creates and produces unity with the Heavenly Father, within us, and within the body of Christ?

Handbook of Rural School Mental Health Mar 07 2020 This handbook offers a comprehensive overview of school mental health (SMH) initiatives in rural areas in the United States. It offers clinical and administrative guidelines for innovative and effective programs addressing critical problems among rural youth and in areas where funding and resources are scarce. Chapters cover program development, implementation, sustainability, and evaluation; consider issues of community and policy support; address barriers to access and delivery; and debunk misconceptions about the region and its cultures. Chapters also discuss rural SMH applications

relating to special populations, including students with autism, depression, anxiety, bipolar disorder, conduct disorders, and ADHD. In addition, the book examines the potential of school-based programs as a counter to the stigma and distrust of mental health services common to the region. Topics featured in the Handbook include: The value of rural SMH from an educator's standpoint. Preventing suicide among students in rural schools. Substance abuse in rural school settings. Bullying and cyberbully among rural youth. Intergenerational patterns of mental illness in rural settings and their relevance for SMH. The importance of involving communities in culturally competent rural interventions. The Handbook of Rural School Mental Health is a must-have resource for researchers, scientist-practitioners, and graduate students in child and school psychology, educational psychology, social work/counseling, educational policymakers, pediatrics/school nursing, teaching, and teacher education.

Customization 4.0 Aug 24 2021 This proceedings volume presents the latest research from the worldwide mass customization & personalization (MCP) community bringing together new thoughts and results from various disciplines within the field. The chapters are based on papers from the MCPC 2017. The book showcases research and practice from authors that see MCP as an opportunity to extend or even revolutionize current business models. The current trends of Industrie 4.0, digital manufacturing, and the rise of smart products allow for a fresh perspective on MCP: Customization 4.0. The book places a new set of values in the centre of the debate: a world with finite resources, global population growth, and exacerbating climate change needs smart thinking to engage the most effective capabilities and resources. It discusses how Customization 4.0 fosters sustainable development and creates shared value for companies, customers, consumers, and the society as a whole. The chapters of this book are contributed by a wide range of specialists, offering cutting-edge research, as well as insightful advances in industrial practice in key areas. The MCPC 2017 has a strong focus on real life MCP applications, and this proceedings volume reflects this. MCP strategies aim to profit from the fact that people are different. Their objective is to turn customer heterogeneities into opportunities, hence addressing "long tail" business models. The objective of MCP is to provide goods and services that best serve individual customers' needs with near mass production efficiency. This proceedings volume highlights the interdisciplinary work of thought leaders, technology developers, and researchers with corporate entrepreneurs putting these strategies into practice. Research Handbook on Street-Level Bureaucracy Mar 31 2022 When the objectives of public policy programmes have been formulated and decided upon, implementation seems just a matter of following instructions. The Constitutional System of Thailand Jul 31 2019 This book assesses the attempt to establish a modern system of democratic government in Thailand against the background of Thai politics and culture. The fact that since 1932, when it became a constitutional monarchy, Thailand has had 18 constitutions speaks of an unstable political system which has seen rapid and repeated fluctuations between military rule and elected government. The main focus of this study is a critical discussion of the institutional frameworks which have been established under recent constitutions. Individual chapters deal with: Thai history and context, including the role of the monarchy and the military, and of constitutional drafting processes; parliament and elections; the executive branch of government, including the role of ministers, the civil service, of a contracting state and of anti-corruption initiatives; the structure and challenges of local government, including discussion of the southern insurgency; the Constitutional Court and constitutional enforcement; the constitutional role of administrative law and of the administrative courts; the constitutional protection of human rights, with freedom of speech as a particular case study.

The Black Hole of Public Administration Sep 24 2021 Public administration in Canada needs to change. A handful of scholars across Canada have been sounding the alarm for years but to no avail. Talented young bureaucrats have been joining the public service with fresh ideas capable of creating real change, but the black hole consumes all. In *The Black Hole of Public Administration*, experienced public servant Ruth Hubbard and public administration iconoclast Gilles Paquet sound a wake-up call to the federal public service. They lament the lack of “serious play” going on in Canada’s public administration today and map some possible escape plans. They look to a more participatory governance model – “open source” governing or “small g” governance – as a way to liberate our public service from antiquated styles and systems of governing. In their recognizably rebellious style, Hubbard and Paquet demand that public administration scholars and senior level bureaucrats pull their heads out of the sand and confront the problems of the current system and develop a new system that can address the needs of Canada today.

Sixty, Sexy, and Successful: A Guide for Aging Male Baby Boomers Jun 02 2022 As a psychotherapist who focuses on working with the issues that challenge midlife and older men, Robert Schwalbe feels that the 60s and beyond can be the most rewarding or the most miserable period in a man's life. An aging male baby boomer looking at 60 encounters very specific psychological and physical changes. The impact of these changes can be felt in relationship to others and in how a man sees himself in his world. Does he continue to fit in? In particular, how a man adapts to being in his 60s is an indicator of how he feels about living the rest of his life. Dr. Schwalbe knows from personal experience, as well as from his patients, the challenges produced by anxiety and depression in dealing with aging in a youth-oriented society. He looks at competition in the gym, sports field, financial and business arena, the political world to the social and sexual world and urges men to adapt to the outside forces. The key is in the expectations and how to recognize and plan for them. Candid and straightforward talk with vignettes drawn from Dr. Schwalbe's practice illustrate problems and solutions related to marriage, relationships, career, retirement (don't, he urges), divorce, death of a partner, fitness, nutrition, sexual behavior, dealing with adult children, lifestyle changes, financial planning, ageism, and many other topics. Schwalbe presents a heart-felt and therapeutically tested guide to keeping things in perspective in order to maintain self confidence and self esteem. Most importantly, this book is directed to the aging male baby boomer (and to those who love him, know him, or live with him). It tells him that he is not alone and that the intimate thoughts that he has about his aging body and mind are shared by millions of men who are in their 60s and are dealing with their new age.
