Mcoqs for the Cardiology Knowledge Based Assessment and Essential Revision Notes for the Cardiology Kba Pack Aug 30 2019 Essential Revision Notes for the Cardiology KBA and MCOs for the Cardiology Knowledge Based Assessment with DVD are the core texts of revision for this new and compulsory examination. Within Essential Revision Notes for the Cardiology KBA, each chapter maps the core cardiology training curriculum, giving measurable assurance that readers are getting the information they need. Each chapter is written by a senior cardiology trainee in collaboration with a senior consultant who has expertise in that specific field, ensuring that the content is both authoritative and accessible. Drawing on the latest guidelines and documents, the concise, bullet-pointed layout allows easy access to and digestion of the key points that candidates will need during revision. Numerous tables, boxes and figures make this the ideal accompaniment to retaining the large and varied amount of information needed to pass the examination. MCOs for the Cardiology Knowledge Based Assessment features over 260 questions mirroring the format and content of the exam. Eleven focused sequences of questions are followed by detailed explanatory answers, which draw in the relevant aspects of the current syllabus, refers to further reading and provides the broad base of knowledge the examiners expect. Written by a team of cardiology registrars and consultants with recent experience of the exam, the format is designed to give the readers hands-on experience of the level and type of questions they can expect in the real thing. In addition to a huge variety of images and case scenarios forming the basis of clinical question stems, the book is accompanied by a DVD featuring dozens of video loops - ranging from coronary angiograms to echocardiography - to help candidates become practised at responding to a clinical stimulus in the context of a Single Best Answer question. Covering the whole scope of the syllabus and offering a truly authentic experience of the exam, both books provide an insider's guide to the KBA, to ensure readers gain both the confidence and knowledge to pass.

Essential Revision Notes in Paediatrics for the MRCPCB Jan 16 2021 The definitive guide to revision for the MRCPCB examination. 25 Chapters covering all areas the MRCPCB syllabus in note format. Concise presentation of information, with hints and tips. Vital facts presented in an attractive user-friendly format. Diagrams, pie charts, lists, illustrations and bullet points to aid learning.

Essential Revision Notes for FrCs (Urol) Book 2: The Essential Revision Book for Candidates Preparing for the Intercollegiate FrCs (Urol) Examination Jul 10 2020 This, along with Book 1, is the essential revision book for candidates preparing for the Intercollegiate FRCS (Urology) examination. Surgical trainees have very busy clinical duties and along with personal commitments this means that time for exam revision is very tight and often done during tired evenings and weekends. Essential Revision Notes for FRCS (Urology) - Book 2 provides a precious concise collection of facts, information and guidance for the benefit of all urology trainees and in particular those sitting the FRCS (Urology) who therefore already possess undergraduate medical knowledge and basic training in surgery. It is designed to be a highly effective tool to pass the FRCS (Urology) and, along with its sister volume, Book 1, forms the only set of textbooks in the world that separates urological knowledge into the 8 different stations of the exam. All content is neatly summarised into bite-size paragraphs, thus removing the task of information gathering and synthesizing which is time-consuming for the busy trainee. Diagrams and tables display information in a visually attractive and simplified way to aid trainee revision. About the author Jack Donati-Bourne is a final year NTN urology trainee in the West Midlands Deanery. He was raised in Rome (Italy) but moved to the UK to study Medicine, qualifying at the University of Birmingham in 2010, later achieving a Merit Award for an MSc in Anatomy at the same institution. He successfully proceeded to obtain Membership (MRCS, 2013) and subsequently Fellowship of the Royal College of Surgeons of England (FRCS Urology, 2019). He has written more than 10 first-author publications in peer-reviewed journals and led presentations on an international surgical platform in 8 different countries. Jack Donati-Bourne has a passion to teach, encourage and inspire trainees and has been invited to lead an MRCS revision session in the Royal College of Surgeons in London, moderated undergraduate exams for the University of Birmingham Medical School and taught on the FRCS (Urology) Rapid Revision Course. He is an avid supporter of Inter Milan and of the "Azzurri."

ITIL Foundation Essentials Oct 01 2019 ITIL 4 is the latest evolution of the leading best-practice framework for ITSM (IT service management).

Essential Revision Notes Frs Urol Mar 18 2021 This, along with Book 2, is the essential revision book for candidates preparing for the Intercollegiate FRCS (Urol) examination.

Essential Revision Notes in Clinical Neurology Nov 13 2020 Neurological disorders account for 10% of consultations in primary care and 20% of acute hospital admissions, yet there is good evidence that 'neurophobia' is common among medical students lost in unnecessary detail. This has led to neurology's long-established reputation as a difficult subject. This book is the antidote to neurophobia. It is divided into four sections: Section I introduces the reader to clinical neurology by summarising the basic aspects of a neurological consultation including history and examination; Section II covers neurological signs related to cranial nerves, motor and sensory system and peripheral nerve lesions; Section III comprises the major and common diseases such as headache, epilepsy, stroke, Parkinson's disease and Multiple sclerosis; and Section IV addresses other main neurological problems. The scope of this book is limited to only the most fundamental principles and omits all superfluous detail - ideal for medical students needing a concise introduction to neurology and an overview for revision.

Essential Revision Notes for Intercollegiate MRCS Dec 27 2021 Suitable for candidates preparing for the intercollegiate MRCS exam, this title presents the essential facts in each subject area in note form with special attention given to areas that are often poorly understood.

MRCS Core Modules Sep 11 2020 This best-seller has been completely revised and updated to provide the definitive guide to revision for all candidates preparing for the MRCS Core Modules examination. It gives a unique presentation of the key elements of all subjects covered in the Core Modules syllabus. Vital facts are presented in a clear concise format with diagrams and user-friendly summaries of the essential facts. Designed to make learning easier, no candidate should be without this excellent book.

The Essential Revision Guide to Paediatric Cardiology Jun 01 2022 This unique reference book takes the reader from the relevant basic sciences of cardiac anatomy, physiology and pharmacology through to the initial clinical assessment and investigation of children with known and suspected heart disease. It covers the core curricula for paediatricians in training at all levels and is ideal as a revision aid for MRCPCH and DCH examination candidates. Highly practical, the book includes clinical examination and cardiac investigations followed by an A to Z of specific conditions and procedures. Key topics are outlined for quick reference and contain a list of differential diagnoses associated with common presentations. The appendix contains vital information for daily practice such as blood pressure centile tables, ECG reference ranges and basic cardiac catheter data.

EMQs in Ophthalmology, Dermatology and ENT Feb 03 2020 This unique text presents challenging questions covering common and important ophthalmology, dermatology and ENT topics. The comprehensive answers make it an all-in-one study and revision tool for busy students. These specialties are commonly misunderstood by medical students and clinical trainees, and are known to be areas in which valuable marks are frequently lost in written and clinical examinations. EMQs in Ophthalmology, Dermatology and ENT is ideal for medical students wanting to consolidate their knowledge. It is also highly recommended for general practitioners, core medical and core surgical trainees, including candidates for the MRCP, MRCP and MRCS examinations. Junior ophthalmology, dermatology and ENT trainees, including candidates for the Duke Elder Exam in Ophthalmology will find the self-testing EMQ format crucial in exam preparations. Benefits Masterpass all you need to know for your exams. Unique the only EMQ revision guide covering all three notoriously difficult specialties: ophthalmology, dermatology and ENT addressing all topics students would be faced with Offer textbook-style answers giving comprehensive explanations no need to refer to other textbooks, making it concise and simple for the reader.

Essential Revision Notes for Cardiology KBA Apr 18 2021 As the first revision text aimed specifically at the Knowledge-Based Assessment, Essential Revision Notes for Cardiology KBA is the cornerstone of your revision for this new and compulsory examination. Each chapter exactly maps the core cardiology training curriculum, giving measurable assurance that you are getting the information you need to pass. Each chapter is written by a senior cardiology trainee in collaboration with a senior consultant who has expertise in that specific field, ensuring that the content is both authoritative and accessible. Drawing on the latest guidelines and documents, the concise, bullet-pointed layout allows easy access to and digestion of the key points you'll need during revision. Numerous tables, boxes and figures make this the ideal accompaniment to retaining the large and varied amount of information needed to pass the examination.

MRCPCH Part One Nov 06 2022 A fully updated and illustrated handbook providing comprehensive coverage of all curriculum areas covered by the MRCPCH Part 1 examination.

The Essential Revision Guide to Paediatric Cardiology Sep 23 2021 A unique reference book covering the relevant basic sciences of cardiac anatomy, physiology and pharmacology through to the initial clinical assessment and investigation. It covers the core curricula for paediatricians in training at all levels including the MRCPCH and DCH examinations. This book is relevant to paediatricians in training, general practitioners, emergency department staff and specialist nurses. General staff working in specialist regional cardiac centres and healthcare professionals involved in the care of children and young people will also find this essential resource extremely useful. The aim of this handbook is to provide a rapid and reliable reference to congenital and acquired cardiac problems. It is very well organised, provides a more detailed discussion of cardiac physiology and pathophysiology and a comprehensive guide to ECG interpretation. It should be of particular interest to paediatricians in training, including those studying for higher professional examinations, but it also provides a valuable source of reference for paediatricians already in practice. From the Foreword by Dr Christopher Wren
