Ideas for Teaching English in the Junior High and Middle School

Apr 17 2021 The nearly two hundred activities in this teaching guide for language arts in the junior high and middle school are arranged in five sections: studying language, communicating orally, reading and reading literature, writing, and listening and viewing. Each section opens with a list of activities, a brief introductory statement, and suggested reading. Sections are subdivided to help teachers locate activities related to particular curriculum units or areas of special interest. All activities were adapted to fit a unified format: purpose, preparation, and presentation. Approximately half of the activities contain material that should be distributed to students and these material sheets are printed separately for ease of reproduction and are presented in a special section. The appendix contains articles on parental involvement in the language arts program and on a two-year program in junior high school writing. (MKM)
