Lovecraft, Algernon Blackwood, Ambrose Bierce, Arthur Machen, Bram Stoker, E. F. Benson, J. Sheridan Le Fanu, Mary Shelley, Robert W. Enter, dear reader, into the pages which birthed those vampires, zombies, werewolves, ghosts, demons and other evils which now inhabit our modern fantasy and mystical works. Be assured that the plots of these classical suspense stories, while crackling with XIX and XX century atmosphere, are no less sophisticated or fantastical than today's premier writers of the genre. You may even discover the inspiration for stories written by Ray Bradbury, Stephen King, Dean Kuntz, and others.

**Conquering the Air** Feb 27 2022 Revisit the romantic age of aeronautics when the rapid development of balloons, dirigibles and airplanes changed the world forever. Archibald Williams wrote this entertaining and informative journey through the early days of air travel for readers of all ages in 1926, covering the earliest ascents in balloons through the Wright Brothers, trans-Atlantic flights. The special edition enlarged reprinting includes: - Enlarged 7" x 10" pages - Crisp digitally re-scanned and enhanced images - Bold new cover design - Author's original page layouts - Classic type font - English printing with illustration captions Chapter by chapter Williams chronicles the feats and failures of those legendary pioneers of flight with enthusiasm and an eye towards the future, where he envisions a time when a "machine will be able to alight vertically in a space no larger than the back garden of a small suburban villa, or on a flat roof." Enjoy an informative look at the earliest ascents of balloons, dirigibles, and the first crossings that made history. The rapid development of the mechanical airplane is covered with great interest, as is its application in commercial air travel, exploration, and warfare. For readers looking to enjoy a broad, illustrated overview of airplanes and the history of air travel, *Conquering the Air* is a delight to read. "We shall devote our attention first to the origin of the spherical balloons and to the most notable voyages made in them. Next, we shall see how the balloon was altered in form, provided with motive power of its own, and converted from a mere gas-container and a self-directing aerial ship. Then follows an account of the experiments which led to the production of the first practical flying machine; to be succeeded by a series of chapters devoted to those flights, of successively increasing length, which, as first exemplifying the conquest of the air the grand scale, may justly be termed epoch-making." Table of Contents: Chapter 1: Early Balloon Ascents Chapter 2: Further Ascents in Fire-Balloons Chapter 3: The Coming of the Gas Balloon Chapter 4: The First Balloon Ascents in Great Britain Chapter 5: The First Crossing of the Channel by Air Chapter 6: Famous Balloon Voyages Chapter 7: The Coming of the Dirigible Balloon Chapter 8: The First Attack on the Atlantic Chapter 9: Pioneers of Mechanical Flight Chapter 10: The First Crossing of the English Channel by Aeroplane Chapter 11: From London to Manchester Chapter 12: A Splendid Future Chapter 13: The First Crossing of the Atlantic by Air Chapter 14: A Magnificent Success Chapter 15: To New York and Back Chapter 16: From London to Australia Chapter 17: From Cairo to the Cape Chapter 18: The First Non-stop Flight Across America Chapter 19: Aircraft in the Polar Regions Chapter 20: The First Flight Around the World Chapter 21: From Italy to Japan and Back Chapter 22: From Spain to Buenos Aires Chapter 23: Lifebelts of the Air Chapter 24: Aircraft in War Chapter 25: Airways Chapter 26: Uses for Aircraft Chapter 27: The Future of Flying About the Publisher: The CGR Publishing Restoration Workshop uses a vast array of computers and digital scanners to restore, preserve, and enhance the classic works of writers and artists from the 19th century. **Revolution and Its Past** Apr 19 2021 Appropriate as a main text for courses in modern Chinese history, politics, society, and culture; also suitable as a supplementary text for courses in East Asian civilization, world history, and world civilization. Unlike other texts on modern Chinese history, which tend to be either encyclopedic or too pedantic, *Revolution and Its Past: Identities and Change in Modern Chinese History*, 3/e, is comprehensive but concise, focused on the most recent scholarship, and written in a style that engages students from beginning to end. The Third Edition uses the theme of identities--of the nation itself and of the Chinese people--to probe the vast changes that have swept over China from late imperial times to the early twenty-first century. In so doing, it explores the range of identities that China has chosen over time and those that outsiders have attributed to China and its people, showing how, as China rapidly modernizes, the issue of Chinese identity in the modern world looms large.

*Islamisation* Aug 12 2020 The spread of Islam and the process of Islamisation (meaning both conversion to Islam and the adoption of Muslim culture) is explored in the twenty-four chapters of this volume. Taking a comparative perspective, both the historical trajectory of Islamisation and the methodological problems in its study are addressed, with coverage moving from Africa to China and from the seventh century to the start of the colonial period in 1800. Key questions are addressed. What is meant by Islamisation? How far was the spread of Islam as a religion bound up with the spread of Muslim culture? To what extent are Islamisation and conversion parallel processes? How is Islamisation connected to Arabisation? What role do vernacular Muslim

languages play in the promotion of Muslim culture? The broad, comparative perspective allows readers to develop a thorough understanding of the process of Islamisation over eleven centuries of its history.

**History of the World (Teacher Guide)** Mar 19 2021 Course Objectives: Students completing this course will Explore the history of the Church Learn about the lives of courageous missionaries around the world Understand the importance of spreading the Gospel Study current global missions needs Acquire geographical knowledge Vocabulary Study: Having a good vocabulary is essential for students to be effective communicators, thinkers, and readers. It is a skill that is applicable to any academic discipline, including history. Students should be encouraged to look up words that they do not know when they encounter them while reading. Students will not do formal vocabulary activities in this course, but a glossary has been provided for words that the students may find difficult or unfamiliar in the assigned reading. Upon encountering an unknown word, the student should consult the glossary provided at the back of the teacher guide and/or a dictionary. Students should also be aware that many of these words have multiple meanings. It is important that students learn to use the context of these words in the text to help understand their meanings. Students are encouraged to maintain a list of these words and review them periodically throughout the course. Review could include writing the words and their definitions on index cards to use as flashcards, having students create their own dictionaries, or using the words in sentences. This component of the course is entirely optional, however, and not built into the schedule. Using Vintage Books: One of the books included in this course, Adventures in Missionary Heroism, was originally published in the early 1900s. There is real value in reading vintage books like this one. These historical texts not only provide us with information but also insight into the attitudes and perceptions of people from that time. It is important to remember that vintage books can express attitudes and use terminology that is no longer considered appropriate. When students come across these moments in vintage books, it is the perfect opportunity for them to have a discussion with their teacher about this material. Teachers and students can use this opportunity to analyze the differences in attitudes between now and then, as well as to review Biblical principles regarding issues like racism. These conversations will provide students a context for understanding the attitudes expressed in the text, as well as help them develop their own skills of discernment and critical thinking when it comes to materials they are reading.

**Thoughtful Times** Jul 31 2019 Writing this book is my way of sharing what I've learned in the course of my life on earth—some very unique life experiences and some most of us have in common. I believe it's this information that ought to be shared more freely by all of us, to enable the creation of better ways than wars and prejudices to take care of personal and collective interests and responsibilities. It's not possible to make life improvements unless we fully own what is and isn't working well. It's also not possible to obtain and provide needed help unless we share what assistance is lacking and available. As a favorite professor insisted at the start of every class, "Our sickness is revealed in our secrets—we must uncover and study what we keep so well hidden before it's possible to cure it." There are two rules essential to assuring this sharing is productive and non-hurtful. Those key rules are truthfulness and kindness. The stories in this book represent what happens when these rules are well applied and when they aren't, to encourage careful management of all interactions so that all participants are treated with due respect. There are chapters, as well, that encourage better understanding and use of human emotions and behavior generally.

**Befreit** Jun 02 2022 Von den Bergen Idahos nach Cambridge – der unwahrscheinliche »Bildungsweg« der Tara Westover. Tara Westover ist 17 Jahre alt, als sie zum ersten Mal eine Schulklasse betritt. Zehn Jahre später kann sie eine beeindruckende akademische Laufbahn vorweisen. Aufgewachsen im ländlichen Amerika, befreit sie sich aus einer ärmlichen, archaischen und von Paranoia und Gewalt geprägten Welt durch – Bildung, durch die Aneignung von Wissen, das ihr so lange vorenthalten worden war. Die Berge Idahos sind Taras Heimat, sie lebt als Kind im Einklang mit der grandiosen Natur, mit dem Wechsel der Jahreszeiten – und mit den Gesetzen, die ihr Vater aufstellt. Er ist ein fundamentalistischer Mormone, vom baldigen Ende der Welt überzeugt und voller Misstrauen gegenüber dem Staat, von dem er sich verfolgt sieht. Tara und ihre Geschwister gehen nicht zur Schule, sie haben keine Geburtsurkunden, und ein Arzt wird selbst bei fürchterlichsten Verletzungen nicht gerufen. Und die kommen häufig vor, denn die Kinder müssen bei der schweren Arbeit auf Vaters Schrottplatz helfen, um über die Runden zu kommen. Taras Mutter, die einzige Hebamme in der Gegend, heilt die Wunden mit ihren Kräutern. Nichts ist dieser Welt ferner als Bildung. Und doch findet Tara die Kraft, sich auf die Aufnahmeprüfung fürs College vorzubereiten, auch wenn sie quasi bei null anfangen muss ... Wie Tara Westover sich aus dieser Welt befreit, überhaupt erst einmal ein Bewusstsein von sich selbst entwickelt, um den schmerzhaften Abnabelungsprozess von ihrer Familie bewältigen zu können, das beschreibt sie in diesem ergreifenden und wunderbar poetischen Buch. » Befreit wirft ein Licht auf einen Teil unseres Landes, den wir zu oft übersehen. Tara Westovers eindringliche Erzählung — davon, einen Platz für sich selbst in der Welt zu finden, ohne die Verbindung zu ihrer Familie und ihrer geliebten Heimat zu verlieren — verdient es, weithin gelesen zu werden.« J.D. Vance Autor der »Hillbilly-

Elegie«

*Identity, Trauma, Sensitive and Controversial Issues in the Teaching of History* Dec 16 2020 History Education is a politically contested subject. It can be used to both promote xenophobia and to develop critical thinking, multiple perspectives, and tolerance. Accordingly, this book critically examines complex issues and constructivist approaches that make history relevant to students' understanding of the modern world. As such, it has global appeal especially in North and South America, Canada, Europe and Asia. The book's authors address the major challenges that History Education faces in an era of globalisation, digital revolution and international terror, nationalism and sectarian and religious conflict and warfare. Central to this volume are controversial issues, trauma, and questions of personal and national identity from a wide range of international settings and perspectives. The research in this book was undertaken by leading history educators from every continent. Their interdisciplinary research represents an important contribution to the teaching of social sciences, social psychology, civic education programmes, history and history education in schools, colleges and universities. The book offers new approaches to history educators at all levels. In addition, the chapters offer potential as required reading for students to both develop an international perspective and to compare and contrast their own situations with those that the book covers. Section I considers issues related to identity; how can history education promote social coherence in multicultural societies, in societies divided by sectarianism, or countries adapting to regime changes, whether Communist or Fascist, including, for example, South Africa, previously Communist countries of Eastern Europe, and previous dictatorships in South America and Western Europe. It discusses such questions as: How important is it that students learn the content of history through the processes of historical enquiry? What should that content be and who should decide it, educators or politicians? What is the role of textbooks and who should write and select them? Should history be taught as a discrete discipline or as part of a citizenship or social sciences curriculum? Sections II and III explore ways in which memory of sensitive issues related to the past, to war, or to massacres may be addressed. Are there new methodologies or approaches which make this possible? How can students understand situations involving intolerance and injustice?

**mRNA Vaccine** Nov 26 2021 What is mRNA Vaccine The immunological response that is induced by a vaccination known as an mRNA vaccine is brought about by the administration of a replica of a molecule known as messenger RNA (mRNA). The vaccine inserts molecules of mRNA that encode antigens into immune cells. The immune cells then utilize the engineered mRNA as a template to construct a foreign protein similar to one that would typically be generated by a cancer cell or a disease. These protein molecules activate an adaptive immune response, which educates the body to detect and eliminate the matching cancer cells or pathogens. Adaptive immune responses have been shown to be more effective than traditional immune responses. The delivery of the mRNA is accomplished by the use of a co-formulation that consists of the RNA being encased in lipid nanoparticles. These nanoparticles serve to preserve the RNA strands and assist in their uptake into the cells. *The Great Illyrian Revolt* Aug 04 2022 The little-known story of a fierce rebellion against the Romans:"A very good read for anyone interested in ancient military history and historiography." —The NYMAS Review In the year AD 9, three Roman legions were crushed by the German warlord Arminius in the Battle of the Teutoburg Forest. This event is well known, but there was another uprising that Rome faced shortly before, which lasted from AD 6 to 9, and was just as intense. This rebellion occurred in the western Balkans—an area roughly corresponding to modern Croatia, Bosnia and Herzegovina, Slovenia, Montenegro, and parts of Serbia and Albania—and it tested the Roman Empire to its limits. For three years, fifteen legions fought in the narrow valleys and forest-covered crags of the Dinaric Mountains in a ruthless war of attrition against an equally ruthless and determined foe, and yet this conflict is largely unknown today. The Great Illyrian Revolt is believed to be the first book ever devoted to this forgotten war of the Roman Empire. Within its pages, we examine the history and culture of the mysterious Illyrian people, the story of how Rome became involved in this volatile region, and what the Roman army had to face during those harrowing three years in the Balkans.
