*Blood on a Pew* Dec 18 2020 On June 18, 2003, at two thirty in the morning, my eldest son, Billy, fell through the tile ceiling of a church, crashing into a hard, wooden pew thirty feet below. At the time, he was temporarily staying in the shuttered convent of this Catholic church located just outside Pittsburgh and was attending a late-night party in the church rectory with a few of his University of Pittsburgh football teammates and the parish priest. The priest hosted the event and provided the alcohol. Every one of the football players in attendance, including my son, was underage. Tragically, later the same day, Billy was pronounced brain dead at Mercy Hospital in Pittsburgh. He was nineteen years old. Billy Gaines was a gifted athlete and promising wide receiver on the University of Pittsburgh football team. His untimely death shook his father, Bill Gaines, to the core. He felt grief as any parent would after the loss of a child. He also felt anger, not just toward the priest who provided alcohol to Billy that tragic night, but also toward God for letting Billy die. As the details surrounding his son's death surfaced, Bill faced some tough questions: What was Billy doing in a church crawlspace at two thirty in the morning? Who was responsible for Billy's death? What could he as a father have done to prevent Billy's death? Why did God allow Billy to die? As Bill Gaines puts the pieces together and tries to find answers to his questions, he finds himself on a spiritual journey. Join him as he finds healing and forgiveness in his faith and learns what led to Blood on a Pew.

**Technicals** Jul 13 2020 Over the last 30 years, the 'technical' or armed pick-up truck has become arguably the most ubiquitous military land vehicle of modern warfare. Harking back to the armed Jeeps and Chevrolet trucks of the SAS and Long Range Desert Group in North Africa in World War II, the world's first insurgent technicals were those of the Sahrawi People's Liberation Army in Algeria in the late 1970s, followed by the Chadian use of technical in the so-called Toyota War against Libya. Since then, technicals have seen use in

Somalia, Iraq, Afghanistan and Libya, as well as being used by Western and Russian Special Forces. Fully illustrated with commissioned artwork and providing rigorous analysis, this is the first history of how this deceptively simple fighting vehicle has been used and developed in conflicts worldwide.

Part 2 reviews the author's multisummer project of reaching the highest ground for each of the 414 counties in America's west. It's a memorable accomplishment replete with many unexpected challenges. The required perseverance and will to achieve beyond the norm is his parting message to the reader.
