The Constitution in the Supreme Court Jul

01 2022 The Constitution in the Supreme

Court: The Second Century traces the

development of the Supreme Court from Chief

Justice Fuller (1888-1910) to the retirement of Chief Justice Burger (1969-1986). Currie argues that the Court's work in its second century revolved around two issues: the constitutionality of the regulatory and spending programs adopted to ameliorate the hardships caused by the Industrial Revolution and the need to protect civil rights and liberties.

Organizing the cases around the tenure of specific chief justices, Currie distinguishes among the different methods of constitutional exegesis, analyzes the various techniques of opinion writing, and evaluates the legal performance of different Courts. "Elegant and readable. Whether you are in favor of judicial restraint or judicial activism, whatever your feelings about the Warren Court, or the Rehnquist Court, this is a book that justifies serious study."—Robert Stevens, New York Times Book Review

Construction Law May 31 2022 Now in its second edition, Construction Law is the standard work of reference for busy construction law practitioners, and it will support lawyers in their contentious and non-contentious practices worldwide. Published in three volumes, it is the most comprehensive text on this subject, and provides a unique and invaluable comparative, multi-jurisdictional approach. This book has been described by Lord Justice Jackson as a "tour de force", and by His Honour Humphrey Lloyd QC as "seminal" and "definitive". This new edition builds on that strong foundation and has been fully updated to include extensive references to very latest case law, as well as changes to statutes and regulations. The laws of Hong Kong and Singapore are also now covered in detail, in addition to those of England and Australia. Practitioners, as well as interested academics and post-graduate students, will all find this book to be an invaluable guide to the many facets of construction law.

Asian Leading Arbitrators' Guide to

International Arbitration Oct 04 2022

The essays in this volume, prepared by a virtual "who's who" of the leading arbitrators in Asia, present a unique insight into arbitration practices and procedures in the world's largest and fastest growing region. This book offers thoughtful advice and insights into the world of international arbitration in Asia from some of the most prominent and experienced international arbitrators in the world. The

contributors are arbitrators from Brunei Darussalam, China, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, New Zealand, the Philippines, Singapore, United Kingdom and the USA. The contributors offer insights and advice on the way in which international arbitrations are carried out from the point of view of arbitrators reading pleadings and memorials and listening to witnesses and hearing arguments. The authors' discussions are intended to be thoughtful, insightful and useful - and perhaps, occasionally, iconoclastic. There may be instances in which the authors disagree with

one another on certain points, for there are often many routes that can be taken to achieve a result. The book will be useful not only to persons who may serve as arbitrators in international arbitral proceedings but also to those who may, in their position as advocates, wish to persuade persons - including, perhaps, the authors.
