The Defeat of the Enemy Attack upon Shipping, 1939-1945 May 08 2020 This book was originally published in 1957. During the First World War, German use of unrestricted submarine warfare, supported by extensive mining and surface raids, very nearly forced Britain out of the war in 1917. The island's heavy dependence on seaborne supplies was gravely threatened again in 1939, supplemented this time by air attacks on shipping. After the war, Commanders Waters and Barley wrote a Naval Staff History which has long been recognised as an authoritative study of the impact of the German campaign and its ultimate defeat by Britain and her allies. It remains an indispensable basis for any serious study of the Battle of the Atlantic and has here been updated and revised by Dr Grove, who also contributes a perceptive introduction outlining its significance.

Pervasive Social Computing Jun 20 2021 This book presents a review of traditional context-aware computing research, identifies its limitations in developing social context-aware pervasive systems, and introduces a new technology framework to address these limitations. Thus, this book provides a good reference for developments in context-aware computing and pervasive social computing. It examines the emerging area of pervasive social computing, which is a novel collective paradigm derived from pervasive computing, social media, social networking, social signal processing

and multimodal human-computer interaction. This book offers a novel approach to model, represent, reason about and manage different types of social context. It shows how users' social context information can be acquired from different online social networks such as Facebook, LinkedIn, Twitter and Google Calendar. It further presents the use of social context information in developing innovative smart mobile applications to assist users in their daily life. The mix of both theoretical and applied research results makes this book attractive to a variety of readers from both academia and industry. This book provides a new platform for implementing different types of socially-aware mobile applications. The platform hides the complexity of managing social context, and thus provides essential support to application developers for the development of socially-aware applications. The book contains detailed descriptions of how the underlying platform has been implemented using available technologies such as ontology and rule engines, and how this platform can be used to develop socially-aware mobile applications using two exemplar applications. The book also presents evaluations of the proposed platform and applications using real-world data from Facebook, LinkedIn and Twitter. Therefore, this book is a syndication of scientific research with practical industrial applications, making it useful to researchers as well as to software engineers.

The Liberty Ships of World War II Nov 13 2020 This book details the Liberty ships and the Emergency Shipbuilding Program during World War II. For the first time, comprehensive information is provided about the builders, the namesakes, and the operators under one cover. Included is a list of all 2,710 Liberty ships delivered by U.S. shipyards, giving each ship's namesake and detailed descriptions of the companies that built the ships and the steamship companies that operated them during the war. This book also details the formation of two shipyards in South Portland, Maine, the Todd-Bath Iron Shipbuilding Co. and the South Portland Shipbuilding Corp. South Portland's shady operations were investigated by the U.S. Congress and resulted in the merger of both companies into the New England Shipbuilding Corporation in April 1943. Also featured is the Jeremiah O'Brien. Built by New England Ship in 1943 and one of only two operational Liberty ships left in the world, its service history and crew information are given along with its postwar restoration and return to Normandy in 1994.

Two Days Till Peace May 20 2021 "This is a fascinating and gripping survival story. The book describes what it was like to live day by day in a city undergoing the beginnings of a terrible civil war where one did not know what was going on from one minute to the next and there was danger at every corner. Neighbors, old friends and colleagues suddenly became enemies and whether you liked it or not you were forced to take sides. The author tells his story with suspense and honesty. He did a remarkable job in keeping the Sarajevo Airport operational against all odds and in doing so was able to help thousands of Sarajevans flee the horrors that quickly overcame the city. A truly fine read." -James Bissett, former Canadian Ambassador to Yugoslavia "As the early UN commander in Sarajevo it would have helped a lot if I knew some of the details Mile recounts herein; unfortunately, he was a kilometer away, which during the war was a mighty long and dangerous trip." -Lewis Mackenzie, Canadian Major General (Ret'd) "An extraordinary testimony about the early days of the war in Bosnia from a witness at the very heart of events. Jovicic's compelling account sheds light on the chaotic situation in mid-1992 and the many missed opportunities to avoid the bloodshed that ensued." -Nebojsa Malic, columnist, Antiwar.com "What a great story, breathtaking! At the Sarajevo Airport the events could have easily spun out of control. The author faithfully recorded many aspects of unreported history that forces us to rethink what really happened in Bosnia." -Kent Johnson, US Air Force Colonel (Ret'd)

Within days, he is assassinated. September 1789: Thomas Jefferson uncovers a conspiracy that could change the face of Islam. Present day: Men still kill to keep the secret hidden. When a car bomb explodes outside a Parisian café, counterterrorism operative Scot Harvath is thrust back into the life he has tried desperately to leave behind. In a race to uncover an ancient secret with the power to stop militant Islam, Harvath will risk everything to reclaim Mohammed’s final revelation and defeat one of the deadliest evils the world has ever known. THE APOSTLE Every politician has a secret. And when the daughter of a politically connected family is kidnapped abroad, America’s new president will agree to anything—even a deadly and ill-advised rescue plan—in order to keep his secret hidden. But when covert counterterrorism operative Scot Harvath is assigned to infiltrate one of the world’s most notorious prisons and free the man the kidnappers demand as ransom, he quickly learns that there is much more to the operation than anyone dares to admit. As the subterfuge is laid bare, Harvath must examine his own career of ruthlessly hunting down and killing terrorists and decide if he has what it takes to help one of the world’s worst go free. FOREIGN INFLUENCE Buried deep within the black ops budget of the Department of Defense, a newly created spy agency reports only to a secret panel of military insiders. Its job: target America’s enemies—both foreign and domestic— under charter of three simple words—Find, Fix, and Finish. When a bombing in Rome kills a group of American college students, the evidence points to a dangerous colleague from Harvath’s past. Leveraging this relationship to lure the suspect out of hiding, Harvath must destroy him. But what if it is the wrong man? In Chicago a young woman is struck by a taxi in a hit-and-run, and the family’s attorney uncovers a shocking connection to the Rome bombing. Harvath must link together the desperate violence, and race to prevent one of the most audacious and unthinkable acts of war in the history of mankind.

The Allied Defense of the Malay Barrier, 1941 1942 Mar 30 2022 Though few realize it, the Netherlands East Indies were the object of Japan’s attack on Pearl Harbor in December 1941. Likewise, their invasions of Guam, Wake Island and the Philippines were mainly diversionary operations to safeguard their main assault on Dutch and British colonies. Since the end of World War I, Japan had coveted the vast East Indies oil reserves, and the colony had feared invasion since Germany overran Holland in May 1940. Isolated politically the weakly defended archipelago was a tempting prize. The East Indies government initially maintained a strict policy of neutrality while desperately working to build up its military strength. As Japanese actions pushed the region toward war, the Dutch reluctantly embraced closer ties with America and Britain. For a brief period, the East Indies were key players in Pacific War strategy. This book details for the first time in English the Dutch prewar strategy, their efforts to counter Japanese espionage and their sizable though largely forgotten military contribution in the early months of the Pacific War.

Merchant Marine Survivors of World War II Dec 03 2019 World War II could not have been won without the U.S. Merchant Marine. Crewed by civilian seamen in peacetime and carrying much of the nation's ocean-borne commerce, the Merchant Marine became the "fourth arm of defense" in wartime, providing vital support for beachheads in all theaters of operation. Twenty World War II Merchant Marine veterans are featured in this oral history. Most had at least one ship torpedoed, bombed, shelled or mined out from under them--some of them two. Some became prisoners of the Japanese for the duration of the war, working on the infamous River Kwai Bridge. Many spent time on lifeboats or flimsy rafts under harsh conditions; one--Donald Zubrod--endured 42 days in a lifeboat with several others before their eventual rescue, close to death. American merchant mariners suffered a casualty rate that was a close second to the Marine Corps during the war.

Not Today Feb 26 2022 "NOT TODAY," was part of a battle cry of John C. Lafferty's Marine unit in Vietnam. He could not forget the meaning of this battle cry nor of his comrades left behind. Twelve years after the war he confides in his sister and tells her his story. Then, she realizes the change in him was not because of the horrors of war, but of the courage, sacrifices and the bonding that takes place between comrades in arms. This wasn't anything she could have guessed nor would she even have been able to understand had he not told her his story. This is when she realizes she wouldn't want to change him back, even if she could. "NOT TODAY," is based on true events from a Vietnam War Vet. The story is narrated by a woman who saw a change in her brother after the war and her diary of conversations with him. The bulk of the story takes place in Vietnam and it covers the politics and the attitudes of people, both in war and after. It is about the real cost of war and the attitudes of one Marine's heart. All the people and names in the story are fictional, but the characters are as real as the events.

Manuals Combined: U.S. Marine Corps Basic Reconnaissance Course (BRC) References Dec 27 2021 Over 5,300 total pages MARINE RECON Reconnaissance units are the commander's eyes and ears on the battlefield. They are task organized as a highly trained six man team capable of conducting specific missions behind enemy lines. Employed as part of the Marine Air-Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace, while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include, but are not limited to: Plan, coordinate, and conduct amphibious-ground reconnaissance and surveillance to observe, identify, and report enemy activity, and collect other information of military significance. Conduct specialized surveying to include: underwater reconnaissance and/or demolitions, beach permeability and topography, routes, bridges, structures, urban/rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites, and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel, assist in specialized engineer, radio, and other special reconnaissance missions. Infiltrate mission areas by necessary means to include: surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air-delivery, and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision-guided

munitions. Conduct post-strike reconnaissance to determine and report battle damage assessment on a specified target or area. Conduct limited scale raids and ambushes. A stunning work of investigative journalism, *Cobra II* describes in riveting detail how the American rush to Baghdad provided the opportunity for the virulent insurgency that followed. As Gordon and Trainor show, the brutal aftermath was not inevitable and was a surprise to the generals on both sides. Based on access to unseen documents and exclusive interviews with the men and women at the heart of the war, *Cobra II* provides firsthand accounts of the fighting on the ground and the high-level planning behind the scenes. Now with a new afterword that addresses what transpired after the fateful events of the summer of 2003, this is a peerless re-creation and analysis of the central event of our times.

In order to transport goods between heavily fortified cities, companies hire convoy escorts. Maxine is the best of these new road warriors: tough, smart, and unbelievably fast. But she also has a secret: She's the niece of New York's most notorious outlaw, a man hunted by what's left of the nation's law enforcement. Maxine wants to live a normal, upstanding life. This is a trip into the far future and then the near future, where the oceans have swallowed up the coasts, the United States has fractured, and people like Maxine are left in the dust. But Maxine is tough and she's got no patience for any crap and she will survive...one way or another. Filled with a terrific carnival cast of characters, cracker-jack scenes, and Kolakowski's witty prose, *Maxine Unleashes Doomsday* is a fantastic read and definitely well worth your time." —Jen Conley, author of *Seven Ways to Get Rid of Harry and Cannibals: Stories from the Edge of the Pine Barrens* "Loaded with savvy world-building, memorable characters and precise, sharp plotting, I devoured Nick Kolakowski's latest. In *Maxine*, Kolakowski gives us the hero we need for the apocalypse we deserve." —Nik Korpon, author of *Wear Your Home Like a Scar* and *Old Ghosts*

The Black Stone of Ka'ba Oct 25 2021 In New York City, a new World Trade Center has arisen from the ruins of the old World Trade Center, but it's not long before it too collapses into flames. Arab suicidal bombers drive six tractor trailers loaded with explosives into the World Trade Center,

prompting an American invasion of Syria in retaliation. A guerrilla war is being fought in Syria against the United States. The American people are outraged at the staggering number of American casualties, and President Weed's position in public opinion polls declines in the midst of the presidential election campaign, making his reelection not certain. Adding to his problems is the presence of a vituperative antiwar third party candidate. In an attempt to win the election and to win the war in Syria, Vice President Regina Ropey, President Weed's mentor, devises a plan to completely eradicate Islam. To weaken the Arabs' faith in their religion, Ropey proposes that the sacred stone of the Muslims, the Black Stone of Ka'ba, be destroyed. Will Ropey's bold plan work, or is the United States on a collision course with a dark fate?
