Trafficking in Slavery's Wake Sep 20 2021 Women and children have been bartered, pawned, bought, and sold within and beyond Africa for longer than records have existed. This important collection examines the ways trafficking in women and children has changed from the aftermath of the "end of slavery" in Africa from the late nineteenth century to the present. The formal abolition of the slave trade and slavery did not end the demand for servile women and children. Contemporary forms of human trafficking are deeply interwoven with their historical precursors, and scholars and activists need to be informed about the long history of trafficking in order to better assess and confront its contemporary forms. This book brings together the perspectives of leading scholars, activists, and other experts, creating a conversation that is essential for understanding the complexity of human trafficking in Africa. Human trafficking is rapidly emerging as a core human rights issue for the twenty-first century. *Trafficking in Slavery's Wake* is excellent reading for the researching, combating, and prosecuting of trafficking in women and children. Contributors: Margaret Akullo, Jean Allain, Kevin Bales, Liza Stuart Buchbinder, Bernard K. Freamon, Susan Kreston, Benjamin N. Lawrance, Elisabeth McMahon, Carina Ray, Richard L. Roberts, Marie Rodet, Jody Sarich, and Jelmer Vos.

Facing the Monster Aug 27 2019 An invisible, growing monster roams the streets, preying on millions of innocent victims in the United States and overseas. This monster is child slavery, and it is woven into the very fabric of our daily lives. Because it touches every aspect of our lives, however, it can be addressed and solved. In *Facing the Monster*, author Carol Hart Metzker calls attention to the plight of the world's children who live a life of modern slavery. She tells how an unexpected encounter with an eleven-year-old girl led her into the dark world of human trafficking, forced sex trade, and child slavery. Metzker's quest to find hope, to help end slavery, and to aid survivors took her as far as children's shelters in remote villages in India and as close as a special home just miles from her front door in Pennsylvania. *Facing the Monster* narrates the stories of rescued child slaves and paints a poignant picture of the plight of hidden victims worldwide. Metzker's inspiring chronicle reveals the monstrous truths about child slavery, provides an action plan to become an agent of change, and presents solutions to end it. It shows how one person's actions can change the lives of many and that everyone can take a step to fight child slavery.

Sex Slaves Nov 03 2022 Trafficking in human beings for the sex industry has been practised for centuries. It occurs today all around the world and the incidence in Asia is nothing new. What is different in contemporary Asia is the SCALE of the trade, the AGES of those involved, and the sophisticated ORGANISATION applied to the marketing of girls. This book demolishes the myths about the wholesomeness of 'Asian values' and takes a controversial and unique approach to the sex industry in Asia by viewing it as a product of Asian cultural values. There are interviews with sex workers, their families, clients and the staff of the charities that work with the women. Above all else, the book tells the story -- often in their own words -- of the girls and women who are forced into this despicable trade. With sensitivity and compassion, SEX SLAVES publicises the tragedy of the voiceless women of Asia.

The Anti-Slavery Project Jul 19 2021 It is commonly assumed that slavery came to an end in the nineteenth century. While slavery in the Americas officially ended in 1888, millions of slaves remained in bondage across Africa, Asia, and the Middle East well into the first half of the twentieth century. Wherever laws against slavery were introduced, governments found ways of continuing similar forms of coercion and exploitation, such as forced, bonded, and indentured labor. Every country in the world has now abolished slavery, yet millions of people continue to find themselves subject to contemporary forms of slavery, such as human trafficking, wartime enslavement, and the worst forms of child labor. *The Anti-Slavery Project: From the Slave Trade to Human Trafficking* offers an innovative study in the attempt to understand and eradicate these ongoing human rights abuses. In *The Anti-Slavery Project*, historian and human rights expert Joel Quirk examines the evolution of political opposition to slavery from the mid-eighteenth century to the present day. Beginning with the abolitionist movement in the British Empire, Quirk analyzes the philosophical, economic, and cultural shifts that eventually resulted in the legal abolition of slavery. By viewing the legal abolition of slavery as a cautious first step—rather than the end of the story—he demonstrates that modern anti-slavery activism can be best understood as the latest phase in an evolving response to the historical shortcomings of earlier forms of political activism. By exposing the historical and cultural roots of contemporary slavery, *The Anti-Slavery Project* presents an original diagnosis of the underlying causes driving one of the most pressing human rights problems in the world today. It offers valuable insights for historians, political scientists, policy makers, and activists seeking to combat slavery in all its forms.

Where Were You? Jan 13 2021 My boots-on-the-ground work to fight human trafficking throughout Asia. There are more slaves in the world today than any other time in history. Enter the world of human trafficking and explore what we can do together to end this global crime. *Where Were You?: A Profile of Modern Slavery* by Matthew Friedman provides an up-to-date overview of human trafficking, a largely ignored present-day evil, and recounts true stories of enslavement in Asia today. Former United Nations and USAID expert Matthew Friedman obtained in-depth first-hand

knowledge with boots-on-the-ground work over 30 years throughout Asia. Human trafficking exists in nearly every nation on earth and Friedman has personally interviewed hundreds of freed slaves and imprisoned traffickers throughout South and Southeast Asia. The modern slave trade operates in brothels, fisheries, clothing and chocolate industries, as well as a myriad of other manufacturing jobs and is a billion dollar business that continues to grow unchecked. Even with the collective response of governments, the UN and civil society partners, less than 0.2 percent of the victims are assisted.

Revisiting Slavery and Antislavery Oct 29 2019 Despite growing popular and policy interest in 'new' slavery, with contemporary abolitionists calling for action to free an estimated 40 million 'modern slaves', interdisciplinary and theoretical dialogue has been largely missing from scholarship on 'modern slavery'. This edited volume will provide a space to reinvigorate the theory and practice of representing slavery and related systems of domination, in particular our understandings of the binary between slavery and freedom in different historical and political contexts. The book takes a critical approach, interrogating the concept of modern slavery by exploring where it has come from, and its potential for obscuring and foreclosing new understandings. Including contributions from philosophers, political theorists, sociologists, anthropologists, and English literature scholars, it adds to the emerging critique of the concept of 'modern slavery' through its focus on the connections between the past of Atlantic World slavery, the present of contemporary groups whose freedoms are heavily restricted (prisoners, child labourers in the Global South, migrant domestic workers, and migrant wives), and the futures envisaged by activists struggling against different elements of the systems of domination that Atlantic World slavery relied upon and spawned. *Revisiting Slavery & Antislavery* will be of indispensable value to scholars, students, policy makers and activists in the fields of human rights, modern history, international politics, social policy, sociology and global inequality.

[Sex, Slavery and the Trafficked Woman](#) Oct 10 2020 *Sex, Slavery and the Trafficked Woman* is a go-to text for readers who seek a comprehensive overview of the meaning of 'human trafficking' and current debates and perspectives on the issue. It presents a more nuanced understanding of human trafficking and its victims by examining - and challenging - the conventional assumptions that sit at the heart of mainstream approaches to the topic. A pioneering study, the arguments made in this book are largely drawn from the author's fieldwork in Ukraine, Vietnam and Ghana. The author demonstrates to readers how a law enforcement and criminal justice-oriented approach to trafficking has developed at the expense of a migration and human rights perspective. She highlights the importance of viewing trafficking within a broad spectrum of migratory movement. The author contests the coerced, female victim archetype as stereotypical and challenges the reader to understand trafficking in an alternative manner, introducing the counterintuitive concept of the 'voluntary victim'. Overall, this text provides readers of migration and development, gender studies, women's rights and international law a comprehensive and multidisciplinary analysis of the concept of trafficking.

with the fate of prostitutes abroad? And why does the story of trafficking sound so familiar? In this pioneering new book, Jo Doezema argues that the current concern with trafficking in women is a modern manifestation of the myth of white slavery. Combining historical analysis with contemporary investigation, this book sheds light on the current preoccupations with trafficking in women. It examines in detail sex worker reactions to the myth of trafficking, questions the current feminist preoccupation with the 'suffering female body' and argues that feminism needs to move towards the creation of new myths. The analysis in this book is controversial but crucial, an alternative to the current panic discourses around trafficking in women. An essential read for anyone who is concerned with the increased movement of women internationally and the attempts of international and national governments to regulate this flow.

Human Trafficking Nov 10 2020 "Despite the United Nations having officially abolished slavery and the slave trade more than 60 years ago, millions of human beings continue to be enslaved. Human trafficking - the official term for the modern-day slave trade - consists of buying and selling people with the intent of exploiting them through forced labor or sexual acts. Human Trafficking provides a thorough examination of this issue. It describes the suffering caused by human trafficking as well as the financial and cultural conditions that make modern slavery possible, both within and beyond national borders. The efforts of the United Nations, national governments, and nongovernmental organizations to combat human trafficking are thoroughly discussed, as are those to provide direct aid to the individual victims. Human Trafficking is an eye-opening account that examines how the trade is conducted in the United States, the Netherlands, Nigeria, India, and Belize. Each case study analyzes the patterns of trade, the types of exploitation, why countries have failed to halt the practice, and the unrelenting efforts to eradicate human trafficking"--Provided by publisher.

Human Trafficking Sep 08 2020 [Human trafficking] is the term that is used today for modern-day slavery. Like African slaves in past centuries, many people from around the world are being held captive and forced to work. Some people are physically beaten to make them work. A few others are sold into slavery. Some are kidnapped. But most people are tricked into becoming a slave. They are given false promises of money, new jobs, educations, and better lives. Then the promises are broken. The victims of human trafficking are trapped. Human trafficking is taking place in almost every country of the world. In fact, there is a good chance that modern-day slaves live not too far from where you live. According to a 2008 report from the U.S. State Department, human trafficking is one of the greatest human rights challenges of this century, both here and abroad.

The Ongoing Tragedy of International Slavery and Human Trafficking Jun 25 2019

Human Trafficking, The Bible and the Church Jan 31 2020 Whilst the philosophical battle against slavery might have been won, human trafficking is very much a problem for our time and continues to spark rigorous debate among Christians wrestling with what God's justice might look like today. Can the Bible, whose teaching on slavery is so at odds with our contemporary worldview, inform efforts to end human trafficking, and if so, how? In "Human Trafficking, the Bible, and the Church" Marion Carson offers a profound, interdisciplinary account of how Christians have engaged with slavery in the past, and how they might respond in the future. Whilst rigorously scholarly and painstakingly researched, this is at the same time a highly readable book that will refresh our own understanding and help shape our responsibility to bring about change.

The modern slavery agenda Dec 12 2020 Modern slavery, in the form of labour exploitation, domestic servitude, sexual trafficking, child labour and cannabis farming, is still growing in the UK and industrialised countries, despite the introduction of laws to try to stem it. This hugely topical book, by a team of high-profile activists and expert writers, is the first critically to assess the legislation, using evidence from across the field, and to offer strategies for improvement in policy and practice. It argues that, contrary to its claims to be 'world-leading', the Modern Slavery Act is

inconsistent, inadequate and punitive; and that the UK government, through its labour market and immigration policies, is actually creating the conditions for slavery to be promoted.
