[Domestic Violence Against Men and Boys](#) Mar 01 2022 This is a unique book that brings together contemporary research and practice around working with men and boys who are victims of domestic violence and abuse. The book features contributions from experts within the field who draw on the wide range of evidence that demonstrates the multifarious experiences of this victimisation.

[Domestic Violence](#) Apr 21 2021 Domestic violence - domestic hooliganism it has been called - is one of the cancers of our age. This volume offers a challenging selection of materials as a picture of a multi-faceted problem. The issues embraced range from criminal and civil law responses and the value of mediation, to the impact on children, and to the cultural context. The materials are derived from a variety of sources and from different disciplines to offer the reader an understanding of the problem not easily culled from standard library resources.

[Children's Perspectives on Domestic Violence](#) Aug 26 2021 'The research methodology and the problems encountered when studying a subject such as domestic violence, coupled with the ethical problems of researching with children, are discussed at length in the book. This gives a good insight into the intricacies of conducting such a research study. The research looked not only at children who were known to have direct contact with domestic violence, but also what children in general thought and felt about domestic violence. The presentation of the findings, both in tabular and narrative form, was well presented' - Accident and Emergency Nursing Journal 'This book offers accessible and interesting reading. It is well written as one would expect from these authors.... There are a lot of pointers for the way forward in terms of both policy and practice. This is likely to become a seminal text' - Research Policy and Planning 'This is a useful and challenging read for all of us who seek to work effectively and ethically in this complex area of practice' - Professional Social Work 'Just looking at the authors of this book tells the reader that they are about to embark on a pioneering piece of academic research... a comprehensive and authoritative piece of work' - Domestic Abuse Quarterly 'A vital tool for all those working with children' - ChildRight 'Written in a lucid style and is easy to read... it is essential reading for all students in social work undergraduate courses and also in post-qualifying courses on child welfare and protection. In addition professionals who are directly working in the area of child protection, schools and criminal justice settings would find this book informative and useful in understanding what children and young people want, and need, in relation to living in domestic violence situations' - Child and Family Social Work 'This book is powerfully written and is essential reading for professional working with and supporting abused women and their children. Its groundbreaking focus on children's experiences adds much to our understanding of the complexities of domestic violence' - Journal of Family Studies 'A treasure-chest of rich, diverse and powerful extracts from children and young people... in particular the material presented on different coping strategies used by children who have experienced domestic violence is an important contribution to an area about which very little is known' - Adoption and Fostering Journal How do children who live with domestic violence cope? How do they make sense of their experiences? Do they receive the right sort of help from formal and informal sources? Drawing on the newest research designed to hear the voices of children and young people, this important book examines children's experiences and perspectives on living with domestic violence. The authors explore: - the effect of domestic violence on children - what children say would help them most in coping with domestic violence - the advice children would offer other children who find themselves in similar circumstances, their mothers and the helping professions. This accessible book written for students, their teachers, researchers and all those working with children - across social work, health, child psychology and psychiatry, the law and education - will provide a vital insight into children's own perspectives on domestic violence.

[Social Work and Domestic Violence](#) Aug 02 2019 Domestic violence can affect all areas of social work. In this book, the authors draw on their extensive experience as practitioners and researchers in the field to show how social workers can intervene in everyday practice and facilitate change.

[Domestic Violence at the Margins](#) Feb 17 2021 "This is a thoughtful and scholarly addition to the unfortunately scarce literature on domestic violence and oppression in all its forms."—Jacquelyn C. Campbell, Anna D. Wolf Chair, Johns Hopkins University School of Nursing "An exciting and powerful collection that eloquently critiques some of the current thinking in domestic violence and raises key concerns for advocates and scholars working in the area."—Sujata Warrior, president, board of directors, Manavi: An organization for South Asian women "Sokoloff has assembled an impressive array of authors who challenge us to 'think outside of our contemporary domestic violence box.'"—Angela M. Moore Parmley, chief, violence and victimization research division, National Institute of Justice This groundbreaking anthology reorients the field of domestic violence research by bringing long-overdue attention to the structural forms of oppression in communities marginalized by race, ethnicity, religion, sexuality, or social class. Reprints of the most influential recent work in the field as well as more than a dozen newly commissioned essays explore theoretical issues, current research, service provision, and activism among Latinos, African Americans, Asian Americans, Jewish Americans, and lesbians. The volume rejects simplistic analyses of the role of culture in domestic violence by elucidating the support systems available to battered women within different cultures, while at the same time addressing the distinct problems generated by that culture. Together, the essays pose a compelling challenge to stereotypical images of battered women that are racist, homophobic, and xenophobic. The most up-to-date and comprehensive picture of domestic violence available, this anthology is an essential text for courses in sociology, criminology, social work, and women's studies. Beyond the classroom, it provides critical information and resources for professionals working in domestic violence services, advocacy, social work, and law enforcement.

[The Routledge International Handbook of Domestic Violence and Abuse](#) Mar 09 2020 This book makes an important contribution to the international understanding of domestic violence and shares the latest knowledge of what causes and sustains domestic violence between intimate partners, as well as the effectiveness of responses in working with adult and child victims, and those who act abusively towards their partners. Drawing upon a wide range of contemporary research from across the globe, it recognises that domestic violence is both universal, but also shaped by local cultures and contexts. Divided into seven parts: • Introduction. • Theoretical perspectives on domestic violence and abuse. • Domestic violence and abuse across the life-course. • Manifestations of domestic violence and abuse. • Responding to domestic violence and abuse. • Researching domestic violence and abuse. • Concluding thoughts. It will be of interest to all academics and students working in social work, allied health, sociology, criminology and gender studies as well as policy professionals looking for new approaches to the subject.

[Female Offenders of Intimate Partner Violence](#) Sep 02 2019 The perpetration of intimate partner violence by women has long been a controversial topic. More recently, researchers, treatment providers and other professionals have begun to examine theoretical, research and practice perspectives to gather a better

understanding of this controversial issue. This book was published as a special double issue of the Journal of Aggression, Maltreatment and Trauma.

Responding to Domestic Violence Mar 21 2021 Rev. ed. of: Domestic violence. 3rd ed. c2003.

Domestic Violence Perpetrators Dec 18 2020 Domestic violence is a serious, widespread public, social and health problem that affects the lives of many women, children and men. There is also evidence to suggest it has one of the highest rates of recidivism. This comprehensive book provides an overview of what the research tells us about the perpetrators of domestic violence and what works, and what doesn't, in promoting positive change. Collecting together the most up-to-date evidence from the international literature and bringing psychological, sociological, gendered and socio-political theoretical perspectives to bear on the issue, the authors explore: - what domestic violence is, why it happens and how it can be measured - who the perpetrators of domestic violence are, including discussion of non-stereotypical patterns such as male victims, female perpetrators, couples where the abuse is mutual, and couples with abusive relationships who want the abuse to end but the relationship to be sustained - strategies for engaging perpetrators in interventions and for promoting behaviour change - evidence-informed interventions, programmes and policies for working with perpetrators - where robust evidence is lacking and more research needs to be undertaken. Domestic violence is a significant problem for those individuals and families whose life is affected by this issue, the social, health and criminal justice agencies that respond to it, and wider society which must bear the costs and its devastating effects. This volume is an important reference for all those researching and working with the victims, survivors and perpetrators of domestic violence, including academics and students from fields such as social work, sociology, criminology, psychology and social policy.

Women and Domestic Violence Jan 07 2020 A collection of legal, psychological, criminological, and law enforcement approaches to domestic violence. Discussion encompasses the history of domestic violence, recent trends in civil legal relief, how police deal with domestic violence calls, and the impact of batterer counseling on the frequency of domestic assault incidents. Of interest to police officers, law professors, judges, and psychologists. The editor is affiliated with the department of criminal justice at Florida Atlantic University. Co-published simultaneously as Women and Criminal Justice, vol. 10, no. 2, 1999. Annotation copyrighted by Book News, Inc., Portland, OR

Domestic Violence and Mental Health May 03 2022 People with mental health problems are more likely to be a victim of domestic violence than the general population. This text offers practical guidance on how mental health professionals can identify and respond to domestic violence experienced by their patients.

Encyclopedia of Domestic Violence Oct 16 2020 Collects entries on domestic violence that cover topics that include ritual abuse-torture and domestic violence against women with disabilities.

Internationales Handbuch der Gewaltforschung Jan 19 2021 Die Forschung zur Gewalt in modernen westlichen Gesellschaften hat in den letzten Jahren zugenommen. Die Erklärungen dafür sind zahlreich: tatsächlicher Anstieg bei bestimmten Gewaltvarianten, neue Sensibilitäten, Rückkehr alter Gewaltformen, Verlagerung von Gewalt in andere gesellschaftliche Bereiche etc. Bisher fehlt jedoch ein systematischer Überblick über die tatsächlichen Entwicklungen. Das vorliegende Handbuch informiert umfassend über Gewalt als soziales Phänomen. Dabei wird fast allen Facetten dieses Themas Rechnung getragen: · Sozialstrukturelle Verhältnisse und Gewalt, · Sozialisation und Lernen von Gewalt, · Gewalterfahrungen und Gewalttätigkeit, · Gewaltopfer, · Gewalt in gesellschaftlichen Institutionen, · Gewalt durch politische Gruppen, · Gewaltdiskurse etc. In 62 Artikeln von Autorinnen und Autoren aus zehn Ländern liefert der Band ein komplexes, transdisziplinäres Bild eines Forschungsfeldes zwischen Ordnung, Zerstörung und Macht.

Domestic Violence and Health Care in India Oct 28 2021 This book discusses health care issues related to domestic violence, using extensive case studies from India. By discussing the global literature, legal systems, methodological challenges of gathering information on domestic violence, and health systems issues, along with learnings from case studies, it fills a significant gap in the literature between health care policy and practice vis-à-vis victims of domestic violence. It therefore enables a systemic and systematic response to incidents of domestic violence. Policy instructions, court verdicts, government interventions, community-based direct interventions and related case discussions in the book help in the understanding and management of cases. Though the book uses case studies from India, it addresses globally relevant issues for health care professionals. In view of the paucity of application of systematic evidence-based knowledge, the holistic perspective presented in the book is important to prevent domestic violence, protect women's rights, and promote healthcare and wellbeing of women and children facing domestic violence. Medical professionals are expected to intervene in instances of injuries related to domestic violence---a responsibility that they are currently unable to fulfil due to lack of training in recognizing abuse and lack of tools for intervention. This book improves hands-on-knowledge by providing information on where to refer victims for assistance and timely intervention. Comprehensive yet lucid, this book is useful for academics, policy makers, non-government organizations and women's rights groups in helping victims during and after a violent episode and also in improving reporting and referral services.

Violence Against Women Jan 31 2022 This book addresses the issue of domestic violence against women, drawing on research findings, policy developments and current debates to contextualise its alarming prevalence and to propose informed ways of addressing, through training and practice, the needs of both victims and perpetrators in current social and related care provision.

Handbook of Domestic Violence Intervention Strategies Apr 09 2020 Public awareness regarding the life-threatening nature and intense traumatic impact of domestic violence has substantially increased in the past decade. At the same time, dramatic changes have taken place regarding criminal justice and social work policies and practices applied to domestic violence intervention. And while the prevalence of domestic violence has declined slightly, national estimates still indicate that every year, approximately eight million women are abused, battered, stalked, or killed by their husbands, boyfriends, and other intimate partners. Featuring cutting-edge research and expert intervention strategies, the Handbook of Domestic Violence Intervention Strategies: Policies, Programs, and Legal Remedies is designed to prepare professionals to swiftly and compassionately meet the multiple needs of women and children who have suffered from domestic violence. This original and indispensable volume focuses on the numerous advances in legal remedies, program developments, treatment protocols, and multidisciplinary perspectives. It is a comprehensive guide to the latest research, public policies, and legal and criminal justice responses, covering federal and state legislation as well as trends in police and court responses to domestic violence. This is the first book to include court-based technology developments and new research related to the duration and intensity of woman battering. Highlighting actual cases and promising programs, the handbook also addresses important social work issues, including risk assessment protocols, a new five level continuum of woman battering, intervention methods, and treatment models. The book also examines the myriad legal issues and health problems facing the most neglected and vulnerable battered women. Written by expert practitioners and leading scholars in the field, the book's 23 chapters provide rich insights into the complexities and challenges of addressing domestic violence. This timely and definitive handbook is recommended for students, clinicians, policy makers, and researchers in the fields of social work, victim services, criminal justice, hospital administration, mental health counseling, public health, pastoral counseling, law enforcement. In fact, this volume is a critical resource for all helping professionals who are assisting abused women in escaping and remaining free from violent relationships.

The Dark Side of Families Sep 07 2022 This series of articles portrays the state of the art on family violence and abuse research, crystallizes the key interdisciplinary issues confronting family violence and abuse researchers, and suggests a research agenda for the coming years. Although the chapters cover a broad spectrum of issues and controversies in the areas of wife abuse, child abuse, the sexual abuse of children, and marital rape, a number of common themes and issues emerge. First, many chapters share the perspective that violence and abuse emerge from the nature of social arrangements. Second, even though many different forms of family violence and abuse are discussed, several chapters explore their commonalities and important etiological differences. A number of articles examine the common effects of victimization across various forms of family violence and abuse. A third common theme of the papers is an expansion of research efforts to groups other than victims of family violence and abuse, as there are chapters that examine the individual and social characteristics of male perpetrators of both wife abuse and child abuse as well as chapters that focus on the attitudes and behaviors of professional groups concerned with the treatment of victims of family violence and abuse. The volume shows great methodological diversity and attention to theoretical detail; the research presented reveals the possibility of a more comprehensive social science approach to the study of family violence and abuse. In work related to theory building, one chapter explains a number of findings in the child abuse and neglect literature using propositions derived from evolutionary biology; another paper distills propositions from several theoretical traditions. In conjunction with these efforts, several chapters report research designed to test competing propositions. Chapter references and research data are provided.

Responding to Domestic Violence Nov 09 2022 This book offers a critical overview of established and emerging manifestations of domestic violence across

Europe. It describes how countries within and outside the EU are responding to the problem in policy, practice and research. Eminent academics and professionals from a range of European countries share their findings from new groundbreaking victim surveys, and weigh up the legal, social and healthcare challenges. The issues addressed include: - the cultural challenges of combating abuse forms most prevalent in migrant communities such as female genital mutilation and forced marriage; - emerging problems such as child-to-parent violence, teenage relationship violence and digital intimate partner abuse; and - barriers to help-seeking faced by marginalised victims such as LGBTQ and older people. By showcasing the most effective responses formulated in Europe and exploring innovative ways to research and understand domestic violence, this book is a crucial resource for all those with responsibility for implementing social policy and good practice.

Advancing the Federal Research Agenda on Violence Against Women May 11 2020 This report expands on the work of an earlier National Research Council panel whose report, *Understanding Violence Against Women*, was published in 1996. The report is based on the presentations and deliberations of a workshop convened in January 2002, at the request of Congress, to develop a detailed research agenda on violence against women. While some of the research recommendations in the earlier report have been funded and carried out, the workshop demonstrated that important gaps remain. For example, prevalence and incidence data are still inadequate to measure trends or to reveal whether interventions being designed under federal programs are, in fact, working. Among its primary recommendations, the committee underscored the importance of strengthening the data and research infrastructure in this area, especially the need for better prevalence data and longitudinal data to determine the causes of violent victimization of women and the impact of interventions.

HÄUSLICHE GEWALT/DOMESTIC VIOLENCE: Eine Untersuchung von bedeutsamen risikorelevanten Merkmalen zur Ermittlung der

Rückfallwahrscheinlichkeit inhaftierter Gewaltstraftäter unter Verwendung des Ontario Domestic Assault Risk Assessment (ODARA) Aug 14 2020

Inhaltsangabe: Einleitung: Prognosen über das zukünftige Verhalten eines Straftäters haben im österreichischen Strafrecht eine erhebliche Bedeutung. Bei allen strafrechtlichen Entscheidungen, bei denen der Gesetzgeber vom Rechtsanwender die Einbeziehung prognostischer Überlegungen fordert, geht es um die Berücksichtigung der Entscheidungsfolgen im juristischen Beurteilungsprozess. Wie bei allen Prozessen der kriminalprognostischen Urteilsbildung geht es um die (begründete) Einschätzung der Wahrscheinlichkeit zukünftiger strafrechtlicher Handlungsentscheidungen und Verhaltensweisen des Täters. Diese Einschätzungen lassen sich wissenschaftlich durch zwei methodenspezifische Grundstrategien erzielen: durch den nomothetischen Ansatz und durch eine ideographische Vorgehensweise. Der nomothetische (oder aktuarische/statistische) Ansatz beruht auf empirisch gesicherten Erfahrungen, die man aus langer Tradition, bislang mit der Rückfälligkeit von Tätern und deren Merkmalen, die die Rückfallwahrscheinlichkeit beeinflussen, gesammelt hat. Die Grundlage dieser Prognosemethoden sind somit empirisch belegte Risiko- und Schutzfaktoren sowie Verfahrensweisen zur Bezugnahme dieser Prädiktoren auf den Einzelfall (Dahle, 2010, S. 71). Anhand klar definierter Determinanten (einzelne Risiko-Items) und einheitlicher Regeln zur Bestimmung eines Risiko-Scores (Aufsummierung der Items) wird einem/den Klienten ein spezifisches Rückfallrisiko ('niedriges', 'moderates' oder 'hohes' Risiko) zugeordnet. Auf diese Weise erhält der Prognostiker/die Prognostikerin eine fundierte Vorstellung vom Niveau der (statistischen) Grundrisiken, auf dem sich der zu beurteilende Proband gemäß breitem empirischen Erfahrungswissen mit vergleichbaren Fallkonstellationen bewegt, und kann sich somit auf ein realistisches Ausgangsniveau einstellen. Ideographische Prognosemethoden basieren hingegen nicht primär auf fallunabhängigen Prognosekriterien, sondern versuchen vielmehr die im konkreten Einzelfall relevanten Faktoren aus ihren spezifischen Gegebenheiten und Entwicklungen heraus zu begründen (ebd., S. 71f). Die Grundlage ist hier also die möglichst sorgfältige Rekonstruktion verhaltensrelevanter Gesetzmäßigkeiten (z.B. die Erfassung biografischer und strafrechtlicher Entwicklungen, die Vorgeschichte des einzelnen Täters und seiner Anlaufstellen etc.). Um nun die zweigleisigen methodischen Vorgehensweisen zu vereinen, entwickelte Dahle (2000) ein klinisch-ideographisches [...]

Ethics, Ethnocentrism and Social Science Research Jul 01 2019 This book addresses the ethical and methodological issues that researchers face while conducting cross-cultural social research. With globalization and advanced means of communication and transportation, many researchers conduct research in cross-cultural, multicultural, and transnational settings. Through a range of case studies, and drawing on a range of disciplinary expertise, this book addresses the ethics, errors, and ethnocentrism of conducting law and crime related research in settings where power differences, as well as stereotypes, may come into play. Including chapters from scholars across cultures and settings – including Greece, Canada, Vienna, South Africa, India, and the United States – this book provides an invaluable survey of the issues attending cross-cultural social justice research today. Engaging issues confronted by all cross-cultural researchers this book will be invaluable to those working across the social sciences as well as professionals in criminal justice and social work.

Unintended Consequences of Domestic Violence Law Jun 11 2020 This book addresses the intersection of two current major concerns in Australia: law and justice responses to domestic violence - including harsher punitive measures - and the over-representation of Indigenous Australians in the criminal justice system, which are similar concerns in New Zealand, Canada and the US. Nancarrow re-conceptualises typologies of violence and provides a means of understanding and explaining female use of violence without undermining the hard-won gains of the women's movement. It does, however, argue for a paradigm shift, which has implications for every aspect of the system we have built to stop men's violence against women (law, police policy and practice, counselling and advocacy for victims, and interventions for those who perpetrate violence). The book is based on quantitative and qualitative research and explores the nature of Indigenous intimate partner violence and the types of violence that domestic violence law sought to address.

International Human Rights Law and Domestic Violence Jul 25 2021 This innovative book examines the effectiveness of international human rights law, through the case study of domestic violence. Domestic violence is an issue that affects vast numbers of women throughout all nations of the world, but as it takes place between private individuals it does not come within the ambit of the traditional interpretation of human rights law. Ronagh J.A. McQuigg questions whether international human rights law can only be effective in a 'traditional' case of human rights abuse or whether it can rise to the challenge of being used in relation to issues such as domestic violence. The book focuses primarily on the question of how international human rights law could be used in relation to domestic violence in the United Kingdom. McQuigg considers recent case law from the European Court of Human Rights on domestic violence and whether the UK courts could use the Human Rights Act 1998 to assist victims of domestic violence. The book goes on to look in detail at the statements of the international human rights bodies on domestic violence, with particular focus on those made by the United Nations Committee on the Elimination of Discrimination against Women and the Special Rapporteur on Violence against Women. The book explores the impact that the statements have had so far on the UK government's policy in relation to domestic violence and discusses how the statements made by the international human rights bodies could be used more effectively by non-governmental organisations, such as human rights groups and women's groups.

Domestic Violence Nov 04 2019 *Domestic Violence: Legal and Social Reality, Second Edition* is a domestic violence casebook featuring cases, statutes, notes, interdisciplinary materials, narratives, and problems. The text is illuminated by a particular sensitivity to the victim's perspective as well as to issues of race, ethnicity, social class, and sexual orientation. New to the Second Edition: Most up-to-date treatment, including coverage of pending Violence Against Women Act (VAWA) Reauthorization Act of 2018, federal guidance on campus sexual assault, reversal of federal policy on asylum, and national screening recommendations Inclusion of new cases addressing same-sex intimate partner violence, federal firearms laws, tribal law, lethality assessment, and cyberstalking Coverage of cutting-edge issues of revenge porn and role of domestic violence in mass shootings New developments in child custody law, including the "safety-first" paradigm Professors and students will benefit from: Materials reflecting the social reality of intimate partner violence through human-interest narratives that complement the cases Integration of interdisciplinary perspectives, including excerpts, notes, and questions emanating from history, literature, psychology, sociology, social work, criminology, and medicine Analyses of current social science research to enhance student understanding Focus on cutting-edge areas of law and often-ignored issues Coverage of the full range of types of abuse Presentation of a variety of problem exercises derived from actual cases and current events Easy adaptation to shorter or longer courses

Violent Betrayal Jun 23 2021 Based on a study of violence in lesbian relationships, this challenging book derives from a common theme expressed by the subjects - the sense of having been betrayed, first by their lovers, and subsequently by a lesbian community which tends to deny the problem when victims seek help. Renzetti skillfully addresses several central issues: consequences for victims, batterers and the community as a whole; and, what we can learn about domestic violence in general by studying violence in lesbian relationships. The research offers a fresh look at domestic violence by examining the phenomenon of women as perpetrators of intimate violence against women, at the same time making a clear distinction between battering and self defence.

Intimate Partner Violence Dec 06 2019 Since the 1970s the issue of intimate partner violence (IPV) has been explained through the patriarchal desire of men to control and dominate women, but this gendered perspective limits both our understanding of IPV and its treatment. *Intimate Partner Violence: New Perspectives in Research and Practice* is the first book of its kind to present a detailed and rigorous critique of current domestic violence research and practice within the same volume. In this challenging new text, with contributions from the UK, the US, and Canada, the subject is assessed from a more holistic

position. It provides a critical analysis of the issue of domestic violence including issues that are often not part of the mainstream discussion. Each of the chapters tackles a different area of research or practice, from a critical review of contemporary topics in domestic violence research, including a critical review of men's use of violence in relationships, a consideration of male victims, IPV within the LGBTQ+ community, perceptions of perpetrators and victims, and IPV within adolescent populations. The second half of the book examines challenges and opportunities for professionals working in the field and includes an analysis of an evidence informed perpetrator programme, the challenges faced working with male victims, and a discussion of the impact of domestic violence on children. Culminating with a series of evidence-based recommendations to bridge the divide between academic and practitioner stakeholders and to inform future working practices, this is an essential resource for students and practitioners alike.

Family Interventions in Domestic Violence Jul 13 2020 In this exciting new book John Hamel, author of the ground-breaking *Gender-Inclusive Treatment of Intimate Partner Abuse*, and Tonia Nicholls go beyond the traditional intervention theories of domestic violence practiced today. Offering alternative, unbiased and sometimes controversial views, theories, and current research, they, along with renowned contributors in the field, provide new treatment options that encompass a wide range of gender dynamics. Here are just some of the key principles covered: Interventions Should Be Based on a Thorough Unbiased Assessment Victim/Perpetrator Distinctions are Overstated, and Much Partner Abuse is Mutual Regardless of Perpetrator Gender. Child Witnesses to Partner Abuse are Adversely Affected, and are at Risk for Perpetrating Partner Abuse as Adults This new gender-inclusive approach to assessment and intervention provides a significant departure from traditional paradigms of domestic violence, and offers a much-needed awareness to effectively prevent violence in our communities today and for future generations.

Domestic Violence Nov 28 2021 This thoroughly revised second edition is an examination of domestic violence from social, legal, and historical perspectives. * A chronology that stretches from 753 BCE, when Romulus, the founder of Rome, formalized the first "law of marriage" to January 2006, when President George W. Bush signed the third reauthorization of the 1994 Violence against Women Act * Illustrations include the power and control wheel (a model in the form of a wheel that explains the dynamics of domestic violence), the ecological theory of battering, and the characteristics of the victim as illustrated by the World Health Organization

Global Responses to Domestic Violence Oct 04 2019 This volume addresses the varied response to domestic violence in a comparative, international context. The chapters are laid out in a consistent format, to cover: the nature of the domestic violence problem, theoretical explanations, the criminal justice response, as well as health care and social service interventions in each country. The intent of the book is to provide an introduction to the attitudes and responses to domestic violence in various regions, to provide meaningful comparisons and share information on best practices for different populations and regions. There are considerable variations to domestic violence approaches across cultures and regions. In some places, it is considered a "private" or "family" matter, which can help it perpetuate. At the same time, the United States' approach to domestic violence has been criticized by some as being too focused on the criminal justice system, rather than other types of interventions which aim to keep families intact. This comprehensive work aims to highlight innovative approaches from several regions, important cultural sensitivities and concerns, and provide analysis to identify the strengths and weakness of various approaches. This work will be of interest to researchers in criminology and criminal justice, as well as related fields who deal with domestic violence and violence against women, including sociology and social work, and international justice. Practitioners and policymakers will also find it informative.

Feminist Counselling and Domestic Violence in India Nov 16 2020 Mainstream counselling in domestic violence often fails to address critical issues, such as gender socialisation processes and the abuse of power that allows violence against women, and focuses primarily on the intra-psychic nature of individual women. In contrast, feminist counselling is an effective alternative model, owing to its ability to address the fundamental correlation of abuse with power. In going beyond the individual, it helps women locate the source of their distress in the larger social context of power and control, manifesting in intimate, interpersonal relationships, and enables them to resist systemic oppression. This volume offers one of the first systematic documentations of feminist psychosocial interventions in India. It situates the issue of domestic violence in the historical context of the women's movement, and examines institutional factors such as family and marriage that perpetuate abuse. Using extensive case studies, it discusses the methods, principles, techniques, skills and procedures followed by feminist organisations across the country, and their role in women's empowerment. The book will serve as a practical reference guide to practitioners such as social workers, counsellors and para-counsellors, health activists, grassroots workers, protection officers and service providers. It will also be useful to scholars and students of psychology, sociology, women's studies, law and public policy.

New Perspectives on Domestic Violence: From Research to Intervention Apr 02 2022

Domestic Violence and Psychology Sep 14 2020 Despite changes to laws and policies across most western democracies intended to combat violence to women, intimate partner violence and abuse (IPVA) remains discouragingly commonplace. *Domestic Violence and Psychology: Critical Perspectives on Intimate Partner Violence and Abuse* showcases women's harrowing stories of living with and leaving violent partners, offering a psychological perspective on domestic violence and developing a theoretical framework for examining the context, intentions and experiences in the lives of people who experience abuse and abuse themselves. Nicolson provides an analysis of survivors' real-life stories, and thoughts about IPVA. The attitudes of the general public and health and social care professionals are also presented and discussed. The theoretical perspective employs three levels of evidence – the material (context), discursive (explanations) and intrapsychic (emotional). *Domestic Violence and Psychology* is divided into three parts accordingly, engaging qualitative data from interviews and quantitative data from surveys to illustrate these theoretical perspectives. Although many pro-feminist sociologists and activists firmly believe that any attempt to explain domestic violence potentially condones it, this book takes up the challenge to make a compelling case demonstrating how we need to widen understanding of the psychology of survivors and their intimate relationships if we are to defeat IPVA. The new edition has been updated to include the latest developments in IPVA research and practice, and in particular examines the impact of a violent and abusive family life on all members, including children. This is essential reading for students, academics and professionals interested in domestic abuse, as well as professionals and practitioners, including psychologists, social workers, the police, prison officers, probation staff, policy makers, and charity workers.

The Sage Handbook of Domestic Violence Jul 05 2022 The SAGE Handbook of Domestic Violence provides a rich overview of the most important theoretical and empirical work in the field, organized by relationship type. This Handbook is a unique and timely publication and a long awaited, valuable resource for the vast amount of Domestic Violence research centres and individual researchers across the globe.

Domestic Violence Oct 08 2022 This book presents a variety of socio-legal perspectives on issues of domestic violence and abuse. Focussing on contemporary research and practice developments in policing, law, statutory and voluntary sectors, the contributors to this volume cover a vast spectrum of initiatives and professional expertise concerned variably with protection, prevention and intervention priorities. The challenges of "joined up" thinking across these perspectives are apparent as the varied definitions, underpinning ideologies, terminologies, the profile of the victim/survivor's voice and identified gaps in service provision appearing in this book illustrate. As a reflection on the current economic climate, some of the perspectives presented necessarily compete rather than complement each other, an issue the volume highlights and addresses. Achieving a broader understanding of these issues and insights into a range of activity in this context is vital for both the practitioner and academic alike, whatever their perspective./div

Domestic Violence in the Lives of Children Jun 04 2022 Examines the role of domestic violence and child maltreatment in the lives of children. Sexual Violence in Intimacy May 23 2021 Integrating interdisciplinary and cross-cultural analysis, this volume advances our understanding of sexual violence in intimacy through the development of more nuanced and evidence-based conceptual frameworks. Sexual violence in intimacy is a global pandemic that causes individual physical and emotional harm as well as wider social suffering. It is also legal and culturally condoned in much of the world. Bringing together international and interdisciplinary research, the book explores marital rape as individual suffering that is best understood in cultural and institutional context. Gendered narratives and large-scale surveys from India, Ghana and Africa Diasporas, Pacific Islands, Denmark, New Zealand, the United States, and beyond illuminate cross-cultural differences and commonalities. Methodological debates concerning etic and emic approaches and de-colonial challenges are addressed. Finally, a range of policy and intervention approaches—including art, state rhetoric, health care, and criminal justice—are explored. This book provides much needed scholarship to guide policymakers, practitioners, and activists as well as for researchers studying gender-based violence, marriage, and kinship, and the legal and public health concerns of women globally. It will be relevant for upper-level students and scholars in anthropology, sociology, psychology, women's studies, social work and public and global health.

Domestic Violence Offenders Aug 06 2022 Women's shelters and safe houses were a good first step, but they only address part of the problem. Learn what else must be done to address the problem of domestic violence! Domestic Violence Offenders presents recent research, current interventions, and legal standards for people arrested for domestic violence. It also addresses the controversies that have arisen in the wake of the mandatory standards for batterer interventions that have been established by various jurisdictions, examining the type of treatment modality and content permitted by various jurisdictions, the duration of treatment, and the relationship of the various standards to actual research. This essential book also provides suggestions for a more inclusive, less rigid process for creating standards and policies for use with this population. Handy tables and charts make the information easily accessible. From the editors: "The initial societal response to intimate partner violence was the development of the shelter movement for battered women. Women's shelters and/or safe houses developed in almost all major population areas throughout the United States and abroad. The goals were to provide a safe environment for abused women and their children, to offer advocacy, counseling, and medical services, and to empower women to leave their abusers. While shelters continue to serve these and other critical needs and are an essential part of the service delivery system for battered women, they address only part of the problem. Left untreated, batterers often will continue to abuse their partners who leave shelters and return to the relationship. If their partners leave the relationship, the batterers may find new victims to abuse. The response to this harsh reality was the development of batterer intervention programs." Domestic Violence Offenders provides you with informed discussions of: the implications of research and policies for those providing interventions why it is premature for states to establish certain rigid standards for batterer programs, and how some of the current standards may produce more harm than good the history of batterer intervention programs completion and recidivism among court- and self-referred batterers the Alternatives to Violence program and the experiences and perceptions of its founder common aspects of various intervention programs—confidentiality, group structure and length, partner contacts, leadership configuration, and program goals topics addressed by most programs—power and control, anger management, substance abuse, stress reduction, parenting, communication, and more the controversial and often misunderstood issue of female partner aggression and violence the Stages of Change approach to domestic violence treatment lethality assessment and safety planning for partners of batterers the advantages of conjoint therapy for certain types of cases the Illinois Protocol for batterer programs outcome research on programs for batterers and a great deal more!
