*Digital Marketing: Cases from India* Jan 19 2021 Given the above challenge, we have selected a few authentic Indian cases that can be used to discuss various concepts of digital marketing. This will address the dearth of contextual cases in the field of digital marketing. The book is a collection of short cases which address specific issues on digital marketing like social media marketing, email marketing, campaign management and analysis, digital marketing strategies, blogs and others. We have tried to present real digital marketing challenges faced by organizations, and how they manage their marketing issues. Each case was developed by considered effort of the authors and editors so that a right blend of theory and practice can be presented in front of the readers. We are hopeful that this book will prove to be useful to both students and teachers working in the area of digital marketing. This book can be used as a supplement to any Digital Marketing text of a professor's choice for both classroom teaching for management programs, and teaching at executive training and regular courses. We hope to bring out new editions of the book with additional/new cases every year or two and keep it contemporary.

This book showcases the work of the Henley Knowledge Management Institute's Business Practitioner Forum. *The Report: Nigeria 2016* Dec 06 2019 Nigeria is the largest economy in Africa with a GDP of \$ 487bn in 2015, according to the World Bank. The country asserted the mantle of the continent's largest economy in 2013, following a rebasing exercise. However, its large population means that Nigeria remains a comparatively poor country in per capita terms, with a lower GDP per capita than several of its sub-Saharan neighbors. Following a real GDP contract of 1.5% in 2016, the IMF forecasts that growth will reach 0.8% in 2017 and 1.9% in 2018. While growth began to pick up in the first half of 2017, Nigeria still has much work to do. However, there is the sentiment that the economy has turned a corner and has begun to see a silver lining. Devaluation of the naira, rising inflation, the drop in oil revenues, the slowdown in oil production, and the leader softening of growth,

**New Partnerships for Innovation in Microfinance** Feb 17 2021 Microfinance has experienced dynamic development. Today, microfinance providers reach close to 100 million clients worldwide and are growing fast. New partnerships expand the impact of microfinance even further. Three types of partnerships are examined in this book, each consisting of a thematic pillar. Pillar I focuses on equity investments in microfinance, especially the possibilities for engaging private investors through structured microfinance investment funds. Rating agencies are involved in providing more transparency in this emerging fund industry. Pillar II focuses on collaboration among microfinance providers, governments, private investors and technology companies which help microfinance institutions to integrate new technologies into their business models, reducing cost and increasing outreach to clients. Pillar III covers micropensions, microinsurance and the role of securitisation for the future of microfinance.

Vivid kaleidoscope of landscapes, glorious historical sites and royal cities, misty mountain hideaways, colourful people, rich civilizations and festivities craft India Incredible. Recent years have witnessed the educational scene, especially the higher education sector in the State undergoing a sea change in respect of quality, diversity and accessibility in tune with the global trends. Kerala's surge in the educational front is to be viewed in the backdrop of the country's great legacy in education. India has been a major seat of learning for thousands of years. The country was home to Takshashila, the first university in the world and Aryabhama, the inventor of the digit Zero. In fact, education in Kerala has now become more value added and affordable, thanks to the pro-active initiatives of the State Government and active involvement of the private sector. Moreover, in the higher education market, Kerala has a significant edge in respect of cost which means that there would be growing influx of candidates into the state from outside the state for better and affordable professional education in the days to come. With the most sought after professionals and excellent network of institutes Kerala is becoming the very preferred educational destination in the world. And, we are equipped for you with some elucidations which step-up her significance in the

educational map. In Campus Plus, we propose some valuable information along with a number of educational institutes in the State which will be useful for the students and parents in the higher education scenario.

**From Underdogs to Tigers** Sep 26 2021 In 1980 the Indian software industry was practically non-existent. By the 1990s the industry was one of the largest employers in manufacturing. Similar patterns of growth can be found in other emerging economies. So given that the software industry is commonly viewed as a high-tech industry, how is it that such spectacular growth has occurred in countries where high-tech industries would not seem likely to develop? This book examines the reasons behind this phenomenon, and asks whether it suggests a new model of economic development. The contributors explore the implications of the rise of these newcomers to the software market for the global industry, and whether there are things to be learnt about the role of human capital in economic growth, firm formation and capabilities, business and managerial models, and industry structure. Chapters include country studies on Brazil, China, India, Ireland, and Israel, and are complemented by cross-cutting chapters on some of the key issues highlighted by the growth patterns of software in these nations, most notably the role of the multinational companies, the globalization of the skilled worker flows, and the formation of firm capabilities. The novelty of the growth patterns in the regions that studied makes this book useful for understanding analytical and empirical issues underlying new microfoundations of economic growth in some emerging regions of the world.

**Migration im Spannungsfeld von Globalisierung und Nationalstaat** Mar 01 2022 Im Zusammenhang mit der globalen ökonomischen Öffnung der Welt entfaltet sich heute zunehmend der Typ des "Migrationsstaats", der neben Kapital und Gütern auch Menschen zulässt und deren Auswahl nach bestimmten Kriterien zu optimieren versucht (Kapital, Qualifikation, Demografie, Bindung zum Nationalstaat oder zu seinen Angehörigen, politische Präferenzen etc.). Der Band stellt die unterschiedlichen Facetten dieses Prozesses dar. In einem zweiten Teil werden unterschiedliche Migrations- und Integrationsweisen an Hand besonders aussagekräftiger Länderbeispiele verglichen.

**Indian Multinationals** Jan 07 2020 Indian firms have grown explosively over the last two decades since India adopted wholesale neo-liberal policies in 1991. Nayak attributes the expansion of these Indian firms and their multinational businesses to the owners' ability to manoeuvre and mould key agents in the external environment rather than to the internal management of the firm.

**FAO Regional Strategy on Food Loss and Waste Reduction in Asia and the Pacific** Jul 25 2021 Food loss and waste (FLW) is one of the key areas under SP4 and BN4 as well as the MPI on Resilient Food Systems in RAP. FAO is well positioned as a global knowledge leader on food loss and waste and many of the other regions already have a tailored regional strategy on FLW reduction. In response to the last two APRC's as well as in line with the ZHC, and more recently the new FAO Strategic framework, this publication provides a basis for FAO and others to understand the scope and depth of FLW issues, how these can be addressed, including some good practices from Thailand, China and Nepal. As a multidisciplinary publication, it includes strong elements on policy and statistics with FAO as leading a convenor on SDG 12.3 on FLW measurement and reduction, highlights the scope and opportunities for FLW

reduction as part of climate change efforts and also in terms of improved nutrition. It builds upon the analysis and advice of the SOFA 2019 on food loss and waste and identifies key pillars for interventions as

well as recommendations for the technical as well as policy/decision makers in the Asia Pacific region. It is strongly linked to the FAP Global Programme on food loss and waste being implemented by headquarters.
